## WHAT THE ELECTORS WANT TO KNOW

### Can He Answer?

Have the electors any right to know where the Hon. W. Templeman stands on the matter of alien labor being allowed into British Columbia in a wholesale manner? The Liberal candidate in this city is appealing for support. On what grounds? Is it because he is protecting the workingman? Is it because through his instrumentality the Dominion government has spent large sums of money in the city on public works? Is it because, if returned, he will advocate the building of warships on this coast? He had his opportunity, as a member of the government to advocate shipbuilding yards in British Columbia, but there is nothing on record to show that he in any way had the interests of this province at heart.

Mr. Templeman has stated in his election appeals that his reason for running in Victoria is because he wants to redeem the city for the Liberal cause. Do the electors agree with him that there is any redemption in reciprocity? Do they believe that by promoting an arrangement, which according to every shade of opinion in the United States, from President Taft downwards, will have the effect of weakening the imperial tie, they will be encouraging the development of their country which has been built up by British money, and by British people? Do the workingmen of the province believe that the secret instructions issued by the immigration department at Ottawa, instructions which allowed hundreds of alien laborers to come into the province and deprive local workmen of the means of livelihood, will tend towards the upbuilding of British Columbia? Mr. Templeman is responsible to the people of British Columbia for these secret instructions. And as he is responsible we again ask him, through the columns of the Colonist, through his own paper, or on the public platform, to answer the following questions:

Again we repeat some questions for the Hon. William Templeman:

**1st. Why did the Times garble the instructions issued to the immigration officers?**

**2nd. Did he know that these instructions had been issued?**

**3rd. Did he assent to the issuing of these instructions?**

**4th. Was he consulted before the instructions were issued?**

**5th. On what request were these instructions issued?**

**6th. Were they issued on the request of Mr. Hays, of the Grand Trunk Pacific railway?**

**7th. Did not Mr. Hays to Mr. Templeman's knowledge ask that Orientals might be admitted to work upon that railway?**

**8th. Does Mr. Templeman deny that men who enter the country with documentary evidence that they are going to permanent employment are to all intents and purposes contract laborers?**

**9th. Does Mr. Templeman approve of the policy set forth in the instructions?**

**10th. Does Mr. Templeman approve of railway contractors bringing men into the country from the United States at a time when hundreds of capable Canadians are out of employment?**

**11th. Has not evidence been placed before Mr. Templeman and the government that there are such men in Canada?**

**12th. Did the Trades and Labor council or any other body representing labor ask that permission be given to the department of immigration to issue the instructions referred to?**

**13th. Does Mr. Templeman believe that his government in granting permission to alien labor to come into Canada is catering to the masses or the classes. His paper says that Mr. Barnard's interests are opposed to the masses and hand in hand with the classes.**

**14th. Will Mr. Templeman now explain his position with the classes and his absolute betrayal of the masses?**

**United labor in this city demands an answer to the above questions.**

### Driven to Extremities.

Yesterday the Times newspaper endeavored to prove that there was no such publication in existence as the Chicago Democrat. The day previously the Times quoted a person whom it alleged was a Conservative, formerly of Chicago, as saying that the Chicago Democrat was a blackmailing sheet and was conducted by a notorious gambler. Thus the evening paper proves in one day's issue that the Democrat does exist, and in the next day's publication that it has neither local habitation or name. The last resort of a person defeated in argument is as a rule invective. Utterly hopeless of bringing forward any legitimate arguent to prove to to the electorate that the United States has no sinister motive in wishing for reciprocity to pass, the Times has resorted to campaign tactics which are so questionable as to scarcely need rebuttal. Proceeding along the line of argument which has been adopted by our evening contemporary, it is not impossible, that as the campaign proceeds it may adduce proof that there is no such person as President Taft; that Mr. James J. Hill is nothing but a name; that the New York Post, the New York Herald, the Detroit Free Press, the San Francisco Chronicle and hosts of other papers were never published and were never even heard of in their respective cities; that Mr. Champ Clark represents not an iota of sentiment in the country in which he leads the Democratic party; and that the congressmen and senators from whose speeches the Colonist has been quoting do not represent their constituents in speaking as they did.

The Times has shown itself hopelessly unable to explain the changing attitudes of Sir Wilfrid Laurier on the reciprocity question. Sir Wilfrid has never been able to give one himself. The Colonist has been careful to answer all arguments brought forward in this city in favor of the reciprocity pact, and in addition it has submitted arguments and endless questions against the trade agreement, all of which have remained unanswered. Although it intends continuing to submit these questions, upon which the electorate seeks enlightenment, until election day, in the light of happenings up to the present it is already forced to the conclusion that they are unanswerable.

### Sharing "Prosperity."

The Hon. William Templeman, Mr. Ralph Smith (free trader), and Mr. Duncan Ross have been telling the electors of Victoria the prosperity that reciprocity will bring to Canada. If prosperity is so rampant in the United States that that country, out of the fulness of its natural treasury, can spare of its abundance to make Canada even more prosperous than she is, will the Hon. William Templeman explain why United States railway companies have dismissed 81,270 hands with a consequent loss of $94,000,000 in wages yearly? And will he explain the following dispatch which is from the Boston Herald?

**NEW BEDFORD, Aug. 30.—Four of the large mills here, employing 2,600 operatives, shut down yesterday. The labor unions are distributing the largest sums in their history for the aid of men, women and children who have been working for many months on short time, or not working at all. There are colonies of wage-earners here whose average income is $5.50 a week. Some men are trying to support large families on $7 and $8 a week. Hundreds of weavers are going back to Lancashire, Eng.**

**The average weekly income of the mill workers in this city during 1910 was $5.89. The workers are strongly of the opinion that when the mills were prosperous and paying enormous dividends there was no sharing of profits among the employees, and they assert that a justifiable request for an increase of 10 per cent. in wages was refused, but not because it could not be afforded.**

### The Alien Labor Fraud.

What is the good of an alien labor law which is set aside at every time and in every place when and where contractors desire to import alien laborers? The law is no good if no one desires to import laborers. It is no good if those who desire to import ineligibles have the act set aside.

Under such conditions the act is a nuisance and a fraud. The working classes are told by ministers of labor and their supporters that they are protected from an overflow of cheap foreign labor. They are deluded and cheated by these assurances, which are dishonest, for there is no such protection. It is grossly immoral and dishonorable to keep the pretence of legislation while officers of the government carry private government orders to disobey the law. Frankness and candor are virtues which governments, as well as private people, should exercise. Fraud and deception are no less vicious in a labor department or an immigration branch than they are in trade, in industry and in society.

It is not too much to say that the disclosures brought about by the alien labor prosecution at Victoria have shocked the community. The violation of the law had been observed and complaint made to the provincial authorities. Proceedings were taken by the attorney-general's department in good faith. The federal government's share in the offense had not been suspected. Only when the chief actors were sworn was it revealed that the importation of disqualified agents had been going on for a year, and that the government at Ottawa was not only a party to it, but had actually ordered the immigration officers to assist in the transaction. While eastern papers, grossly exaggerating the condition of affairs, were describing Vancouver as a place where thousands of men without work were in the streets, the department of immigration was loading the labor market with forbidden men from abroad. If there are men today who are able and willing to work and cannot find employment, it is quite likely that some of them were imported under this special license, and that others have been replaced by men so improperly imported.—Vancouver News-Advertiser.

### Welsh Strike Averted

LONDON, Sept. 1.—A general strike of the South Wales coal miners for a minimum wage scale has been averted through the influence of the right Hon. William Abraham, member of parliament and president of the South Wales Miners' Federation. A conference with employers has been arranged.

## DOMINION WILL DEFEAT PLOT

### Conservative Leader Exposes to People Living Near Quebec Boundary True Character of Reciprocity Bargain

### FINDS OPPOSITION FROM ALL PARTIES

### Halifax People Listen with Interest to Hon. Mr. Sifton—Sir Wilfrid Suffers from Rough Trip

MEGANTIC, Que., Sept. 1.—Mr. R. L. Borden wound up one of the busiest days of his Eastern Townships tour here today, addressing a large meeting from the verandah of the hotel. It was the fourth meeting he had addressed during the day, the Conservative leader taking in Cookshire, Waterville, Scottstown and this village in quick succession. Here, on the bonudary line separating Quebec from the state of Maine, the tenor of Mr. Borden's address was entirely on the higher national and imperial grounds, which the opposition advance for rejecting reciprocity. Canada, he said, had achieved a great feat in nation building. Has all our vast heritage to be handed over to the tender mercies of our good neighbors? The speaker told his hearers that throughout the west and throughout Ontario he had found Canadians expressing themselves in no uncertain terms on the question or reciprocity, Liberals as well as Conservatives proclaiming that what they had they would hold. The entire Dominion was being aroused as the deep plot of President Taft to seduce this nation through the bribe of reciprocity became increasingly evident.

### Mr. Sifton at Halifax

HALIFAX, Sept. 1.—Hon. Clifford Sifton tonight addressed a large and enthusiastic meeting. He was preceded by Robert Mathans, of England, who spoke from an imperialistic standpoint, deploring the effect of reciprocity upon the empire.

Ex-President Forest, of Dalhousie university, a member of the British Imperial League, presided over the meeting. The reception accorded Mr. Sifton and other speakers was enthusiastic.

### Sir Wilfrid Indisposed

CHARLOTTETOWN, P. E. I., Sept. 1.—Sir Wilfrid Laurier, Mr. Fielding and Mr. Hardy arrived in Georgetown from Pictou at ten o'clock after a rough trip, during which the premier was indisposed. On arrival they proceeded by train to Montague, where upwards of 2,000 persons attended a meeting in a heavy downpour of rain. At five they proceeded to Charlottetown, where they addressed a large meeting.

## HAD IMPERIAL VIEWS

### Documents Left by Portuguese Royal Family Said to Reveal Schemes For Power in Spain

LISBON, Sept. 1.—(By way of the frontier.)—Deputy Amenes, on behalf of the government, declared in the assembly today that the commission appointed by the government to collect the letters and documents abandoned by the Portuguese royal family in its flight last October had discovered letters showing that in 1876 King Luis was plotting to obtain the Spanish throne and be proclaimed Emperor of Iberia.

The newspaper Novidade says other correspondence found makes it appear that King Charles had a similar plan in view at the time of King Alfonso XII., the father of the present Spanish monarch.

The Patriarch of Lisbon is authority for the statement that the Holy See has been advised of the probability of a complete remodelling of the law in Portugal concerning the separation of church and state, and that Pope Pius has declared that if the remodelling is along liberal lines there will be no objection to the churches accepting the law and resuming diplomatic relations with Portugal.

Senor Mohado, the foreign minister, has handed to the British minister his written assurance that the Irish seminary of St. Patrick and the British convent and college of the Dominicans will be permitted to continue as heretofore. The Italian government complained to Portugal of preferential treatment being according these orders, while members of the Silesian order are not permitted to remain in the country.

### Montreal Postoffice Busy

MONTREAL, Sept. 1.—The large increase in the volume of business transacted at the Montreal post office for August is shown over the corresponding month of last year. Despite the great strike in England, which interfered somewhat with the regular despatch from here of overseas mails, the revenue of the Montreal office for the month of August was $96,072.80. For the month of August, 1910, the total was $84,978.35. The statement showing the number of sacks of mail received from Great Britain for the month of August, 1911, indicates that for last month there was a total of 2,564 sacks received, while in August, 1910, the total was 2,278. There was an increase of 5,525 pounds of letters, 23,937 pounds of printed matter and 422 parcels over August of last year in the British mail forwarded from Montreal post office.

### Pleads Guilty of Murder

HOLLAND, Mich., Sept. 1.—Walter Hopper today pleaded guilty to the murder of Grace Lyons of Grand Rapids, whom he threw overboard from the steamer Puritan, in Lake Michigan, and was sentenced to life imprisonment. Hopper expressed himself in favor of death penalty either by hanging or by dropping himself into the lake beside the girl he loved.

### Franco-German Negotiations.

BERLIN, Sept. 1.—No developments in the Franco-German negotiations over Morocco are expected before Sunday, as M. Cambon, the French ambassador, is confined to his apartments by illness. It is believed that if France is disposed to accept Germany's minimum demand of certain portions of the Congo as compensation, the other questions affecting Morocco may be arranged satisfactorily.

## U. S. LUMBERMEN GET ADVANTAGE

### Complaint Sent to Ottawa that they are Allowed to Bring in Dressed Lumber Contrary to Law

### COMMISSIONER WILL INVESTIGATE

### Says That Classification May Give Room for Devices Whereby Lumber is Admitted Free of Duty

OTTAWA, Sept. 1.—"I have received no complaints from the British Columbia lumbermen or from any other source, relative to the dispatch received this morning that my customs collectors on the coast are allowing United States lumbermen to bring dressed lumber into British Columbia contrary to law," declared Mr. J. C. Macdougall, chief customs commissioner, here today.

"And further," he declared, "I do not believe that the situation is as bad as the dispatch would imply. However, my department will conduct an immediate investigation, and if the conditions existing are such as the lumbermen complain of it will probably be explained that no doubt owing to the classification of different schedules there was room for various devices by which the Americans could have their lumber admitted free." He was in favor of having the classifications changed in such a manner so as to leave no doubt as to what really constituted dressed lumber. For instance, he said, sawn boards were admitted free, as were boards dressed upon one side, and said, sawn boards were admitted free, as were boards dressed upon one side, and this frequently lead to a difference of opinion as to whether certain kinds of lumber should or should not be debarred. He was sure that the government would welcome any suggestions that the lumbermen could make, and was anxious to have the details of the complaints made by them placed in his hands.

"If," he concluded, "my customs collectors on the coast are negligent of their duty they will be promptly dismissed from office."

## CASES HEARD BY COMMISSION

### Members to Look into Proposed Limits for Express Delivery—Proposed Fire Patrol by Railways

### C. P. R. TO GET COQUITLAM LAND

VANCOUVER, Sept. 1.—At today's sitting of the railway commission, Chairman Mabee decided that the board would inspect the plans of the proposed North Vancouver ferry subway before deciding the matter. In the meantime he considered that the city of Vancouver should certainly contribute to the expense, but he saw no reason why the C. P. R. should do so. He was not satisfied that the best plan had yet been discovered. This matter was debated for an hour.

As to the limits sought to be imposed by the express companies on delivery, it was decided that the board would take an automobile ride around the city before deciding whether or not there should be any limits. At the same time, Mr. Hardwell, representing the board, will visit Victoria and Nanaimo on a similar errand.

Another matter lengthily discussed was the applicaton made by the chief commissioner of provincial lands for suggestions for the establishment of a fire patrol in places where there are railways throughout the interior with a view to diminishing forest fires. The government are to make suggestions which the commissioners will transmit to the railways to see how the proposals are entertained.

Also a great deal of evidence was heard as to matters affecting shippers in connection with the variations of car weights when weighed coupled, and when weighed after wet weather.

This morning the C. P. R. was given permission to proceed with the expropriation of certain lands at Coquitlam. There were many objections of farmers and others holding land in that vicinity who declared that the railway wanted the land for other than for railway purposes, because the tract proposed for the shops was four times as large as the area of the great Angus shops in Montreal. The commission, however, did not care to go behind the affidavit of Sir William Whyte, who had declared that all of the property sought was required for the company.

## PRISONER LYNCHED

### Masked Men at Grangeville Raid Jail and Kill Man Charged with Attempted Murder

SPOKANE, Sept. 1.—A special from Grangeville, Idaho, says:

"Shortly after 2 o'clock this morning a mob overpowered Jailor McLean and Deputy Waldron at the Idaho county jail, located in this city, and taking the key to the cell house from a desk in the jail office, entered the jail and killed Peter Mallick, a half breed Nez Perce Indian, who was being held upon a charge of attempting to murder his wife, whom he viciously attacked several weeks ago.

According to the evidence brought out at the coroner's inquest held today, Deputy Waldron, who has the night shift at the jail, was startled by a slight noise on the outside and, opening the jail door, stepped out. He was confronted by four masked men, who leveled guns on him and ordered his hands up. Waldron complied and was kept covered.

Three other men entered the jail and met Jailor McLean, who, hearing the noise, had awakened and was coming out of the bedroom. McLean, too, was covered with guns, and at this juncture six or seven other men entered the jail, took the keys from the desk in the office, also disconnecting the telephone from the jail to the sheriff's residence. Unlocking the cell house, they made a search of the cells for Mallick, who was shortly located in the steel cage. He was ordered to turn down the covers and show his face. The command was followed with the exclamation by one of the party to 'get up and take your medicine.' Mallick complied."

### Given Charge of Parks

OTTAWA, Sept. 1.—J. B. Hartlin, for years private secretary to Hon. Frank Oliver has been appointed commissioner of national parks, with headquarters in Ottawa. He will have supervision over all park reserves held by the federal government, most of which are situated on the slopes of the rockies. These parks were formerly under the forestry branch but a separate bureau is created, J. P. Featherstone becomes Mr. Oliver's secretary.

## RALLY OF WARD FIVE ELECTORS

### Broad Street Hall Thronged to Hear Mr. G. H. Barnard and Others Discuss Issues of Campaign

Broad street hall was filled to the doors last night when the Conservatives of Ward 5 held a rally, with the chairman, Mr. A. G. Sargison, in the chair. It was an enthusiastic meeting. There were cigars and tobacco, and some excellent songs were interspersed with the short speeches. The candidate, Mr. G. H. Barnard, who was received with applause, spoke briefly, having an engagement to address the electors at Royal Oak. He referred to the contradictions of Mr. Ralph Smith in telling the rural residents how he was going to increase the cost of produce, and Mr. Templeman, who told those in the city how he was going to decrease the cost of living. This was like the story of the lawyer who argued with a judge that his client was insane and therefore should not be committed; and the judge asked if it was not the same client that he had said was sane before a jury. The lawyer then said that he would not think of putting the intelligent judge on a level with that jury. This was how it was with Messrs. Templeman and Smith They had little regard for the intelligence of their hearers.

Mr. Barnard told how the Vancouver World sent a reporter to Seattle to obtain a list of prices, and the reporter sent back a list which quoted oranges and lemons as selling at 20 to 30 per cent. less in Seattle. The World and its reporter seemingly did not know that under reciprocity the duty would not be taken off oranges and lemons. There was a moral to this. Everything that was to be seen in certain newspapers, notably the Times, must not be taken for gospel.

Mr. Barnard said the trend of events throughout the Dominion went to show that the Liberals would be wiped out on September 21. (Applause.) The receptions given Mr. R. L. Borden, and the defections Sir Wilfrid Laurier had found in Quebec indicated what was happening. Sir Wilfrid was scared of Quebec. He rushed back there periodically, and his line of appeal indicated his fear. In one place he says: "I was born here; vote for me." In another he says, "I was educated here; vote for me," while in another, he says "I started business here," and in still another a sporting place, where cock fights took place, he said, "Put your money on the old cock!" He says if he is beaten he will never lead an opposition. And the

(Continued on Page 2, Col. 3)

## LIBERALS RELY ON MR. HEARST

### Employee of American Publisher Encamped in Montreal is Concocting Some Remarkable Campaign Stories

### LIBERAL SENATOR AGAINST RECIPROCITY

### Cheese Market Affords Awkward Argument for Hon. George P. Graham to Meet—Mr. Sifton's Tour

OTTAWA, Sept. 1.—The clerk of the crown in chancery stated today that there will be no deferred elections, so far as he knew, other than those already announced. He apparently does not look for any delays in British Columbia or Saskatchewan ridings.

Some doubt exists in regard to the two Algomas and Nippising in northern Ontario. The lists for these districts are coming in, but there is a prospect of numerous appeals against the action of the Liberals in herding men into the bush polls from the construction camps of the national transcontinental railroad. This may be used as a pretext for the deferring of the elections in these ridings.

### Hearst to the Rescue.

Pre-reciprocity interests in the United States have placed men in the fort to assist in the Laurier campaign. W. R. Hearst has a man in Montreal writing lurid stories of alleged anti-reciprocity help from the United States trusts. These stories are being printed in the Hearst papers, which in turn are sent into Canada. Copies of the so-called Canadian edition of the Boston American are being given away freely in Ottawa today, containing the wholly unfounded dream story of lavish expenditure of American trust money by Conservative candidates in close constituencies.

The intention is clearly to influence the Canadian electors, but the story is so evidently grotesque as to defeat its purpose, and no interference is probable on that account. A campaign of this sort under the Canadian act is illegal.

Hon. Clifford Sifton, after his tour in the Maritime provinces, comes back to Ontario. He speaks in Ottawa on the 5th, with W. T. White, first vice president of the National Trust company, and one of the eighteen Toronto Liberals in revolt on the reciprocity issue. Mr. Sifton then goes to North Lanark, Cobourg, Oshawa, Weston, Aylmer, Stratford, Port Hope and Windsor.

Henri Bourassa is still suffering from his throat trouble, and may not be able to do any more campaign work this week.

Sir James Whitney announces the receipt of a letter from an old time Liberal, Senator James McMullen, of Mount Forest, endorsing his stand against reciprocity. Many other Liberals are joining the reciprocity ranks, and some of them are taking the stump against the government. It is now said that there are only ten seats at the most in Ontario which may be classed as safe for the Liberals.

Hon. Mr. Graham's troubles in Brockville are increasing. Cheese in the district is selling at good prices and holds well above the level of the prices across the boundary. In their efforts to get over this difficulty, the Liberals are accusing Montreal Conservatives of boosting the price. In the same district it is said that more money was sent out to offer the farmers higher prices for hay for delivery after the passage of the reciprocity agreement.

Edward Kidd was nominated by Carleton Conservatives today.

### H. B. Company's Plans

WINNIPEG, Sept. 1.—Commissioner Burbidge, of the Hudson's Bay Company, gave a most emphatic denial to the report that the company had abandoned for an indefinite time its policy of "building extensions throughout the west." In reply to an inquiry today he said with great deliberation: "The policy of rapid extension of buildings throughout the west by the Hudson's Bay Company has not been modified. At Calgary work will be resumed shortly when the amended plans are sent back from Toronto. We will also rush construction at Victoria, Regina and [illegible] other point in the west where [illegible] previously planned these extensions. This, of course, also applies to Winnipeg."

# MEETINGS IN THE NANAIMO DISTRICT

## Mr. Frank H. Shepherd, Conservative Candidate, Arranges Schedule—To Speak at Esquimalt on Tuesday

Mr. Frank H. Shepherd's campaign committee has outlined a programme of meetings for the Conservative standard bearer in Nanaimo district which will keep that gentleman busy from now to polling day. Some of the dates have yet to be arranged but for the next three days the programme has been fixed as follows:

This afternoon Mr. Shepherd, who will be accompanied by Hon. D. M. Eberts, K.C., speaker of the legislative assembly, will address the electors of Salt Spring Island; this evening he will speak at Sidney. On Monday the Conservative candidate will be joined again by Mr. W. H. Hayward, M.P.P, and meetings will be held at Pender and Mayne islands. On the evening of Tuesday next Mr. Shepherd will address a public meeting at Esquimalt.

The latter meeting is expected to prove one of the most interesting and important of the Conservative candidate's campaign as Mr. Shepherd intends replying at length to the arguments of his opponent, Mr. Ralph Smith, as advanced at the recent Liberal meeting at Esquimalt.

Other meetings in the interest of Mr. Shepherd will be announced as soon as dates have been definitely fixed.

# RALLY OF WARD FIVE ELECTORS

(Continued from Page 1)

country will lose his services, and, fearful of the issue, he works hard to try and stampede the people he once felt no alarm about.

### A Change Coming

There will be a change of government and the end of Newmarket canals, wharves in fields in Nova Scotia, and other grafts will come about. The accounts of the G. T. P. will be closely scrutinized and the savings to the country will amount to millions. It behoved all to give a helping hand to end this state of affairs.

Mr. John Jardine said the Dominion was on the eve of a great change, and when governments change there is sufficient reason. There was, he said, a duty which devolved upon all to join in the work of downing this government which had been recreant to its trust. It had golden opportunities when it came into power; but now was seeking to loose the keystone of empire and throw Canada toward a republican government which had no sympathy with our monarchical form of government. The people had decided they would not stand this and it was only a question of majority. Ralph Smith knows he is defeated, and he sorrows that he can no longer go to pose as the bosom friend of Sir Wilfrid Laurier.

Mr. G. E. Hutchison recited a humorous work: "Miss Canada's First Love," in which he told of the downfall of Wilfrid and Reciprocity.

Mr. A. G. Sargison, the chairman, spoke of the work being done by those of Ward 5 and he knew that all who had British institutions at heart would aid. Mr. Hurst sang "The Admiral's Broom," and was loudly applauded.

### Parting of the Ways

Mr. H. B. Thomson told of his pleasure at seeing such a ward meeting, which indicated the keen interest displayed in this contest. It was not hard to see why this was the case, as so many eminent men had stated, Canada was at the "Parting of the Ways." Had the Liberals come to appeal on their record the task of the Conservatives would have been easy indeed, for there was one long line of broken promises. The Liberals had buncoed the people when they were placed in power on the cry of "Free trade as they have it in England," but had stayed on by the old National policy inaugurated by Sir John Macdonald, which he maintained was the proper policy for Canada. It was a greater task than could be done at one meeting, or in the three weeks before election day, to tell of the maladministration of the Liberal government, with its Newmarket canal, which required building of reservoirs to pump water, involving the spending of millions; its sawdust wharves, and the G. T. P., which, when the curtain goes up on it will open the eyes of Canadians. The people will stand aghast. Already it is known that portions which were to cost $30,000 a mile are costing $120,000 and the people have to pay the bill. Sir Wilfrid Laurier is, however, endeavoring to screen all these things. The red herring of reciprocity is being drawn across the trail, and Mr. Templeman, in his paper, says that the issue should be confined to reciprocity. The people, however, have the right to consider other issues, to ask questions, and they would like to know from Mr. Templeman why Mr. Pugsley can go to St. John and with one stroke of the pen authorize the expenditure of $13,000,000 on harbor improvements at St. John, while Mr. Templeman looks at Brotchie ledge and says, "Yes, it is very interesting, and might be a good thing, and offers to lay the matter before Mr. Pugsley." Mr. Pugsley did not consult Mr. Templeman when he arranged for the big expenditures at St. John; but the best Mr. Templeman can do is a foghorn at McLoughlin point.

### Amusing Tactics

Mr. Templeman's paper has been amusing in this campaign. It reports Col. Currie's eloquent speech at the nominating convention in which he said Mr. Simon Leiser would explain all that Mr. Templeman had done for Victoria. It would be an interesting meeting when this explanation was made.

There was a column in the Times headed "The Issues," which says the workingmen will not be bamboozled by those who do not care for his vote or his wages, and one which says that Dr. Johnson said "Patriotism is the last refuge of a scoundrel." Mr. Thomson said he was glad to be a scoundrel if to be patriotic was to be one and considered there were many scoundrels of that type.

As for bamboozling the workingmen how much further could the Liberal government have gone than to hold secret sessions to admit alien laborers into Canada without the requisite qualifications under the immigration law, and in defiance of the law which says alien workmen cannot come into Canada under contract. Instructions were given by the Ottawa government to the immigration officials to pass these men who came from the United States, under contract, in opposition to the law. If that is not bamboozling the workingmen what is?

### Would Kill Development.

Mr. Thomson went on to speak of the cry of reduced prices and said prices were ruled by trade conditions. He referred to the duty on butter, amounting to four cents a pound, and asked if any one interested in seeing the settlement of his country wanted this duty removed, to the detriment of the rancher and agriculturists who settled on Vancouver island. He then referred to the wheat situation, telling how the large mills of Minneapolis and St. Paul imported No. 1 hard from Canada to mix with their softer grades and raise the grade of their flour. Thus they are enabled to ship at less cost, and compete with the No. 1 hard of Canada. It was a detriment to the wheat raiser of Canada. He told of how Mr. John Dean had informed people of the drawback of 24 3-4 cents which made the duty but 1-4 cent per bushel on Canadian wheat. This was by a treasury order, little circulated, and Hon. Mr. Fielding had seemingly not known of it when he spoke of the pact in the House of Commons because he said then Canada was taking off 18 cents as against 25 cents by the United States. The drawback materially altered the situation. As in this, so with other things, this reciprocity pact was a gold brick and the people of Canada did not want it.

There was no need of any such agreement. It was known the United States needed the natural resources of Canada to carry on manufactures and would take off the duties to get them. Thanks to the British Columbia government since 1905 the timber of British Columbia was protected, the wisely passed laws whereby logs logged off crown lands had to be cut in Canada had increased the lumber industry 400 per cent., had resulted in wages being earned in British Columbia, building towns, etc. It was good to know the lumber of British Columbia was not in the hands of the Dominion government to give to the United States.

### Country Before Politics

Mr. Ernest Fair sang "Land of Hope and Glory," and being loudly encored, he sang "Two Eyes of Grey." Then Mr. Herbert Cuthbert spoke on the situation. He said this election was the greatest that had taken place, for the great issue was not one of Liberalism or Conservatism, but one of saving the country. He had said he was opposed to reciprocity because he was a Britisher, and a professional man he spoke with, asked "What had Britain ever done for Canada?" As well ask what father and mother had done for a favorite son. Canada was protected by the fleets, the soldiers and statesmen of Britain, and now the issue has been raised of handing over Canada lock stock and barrel to the U. S. Are we Canadians going to stand for it?

Voices: No.

You have to look far back into history to find a comparison for Sir Wilfrid Laurier. Esau compares with him. Esau sold his birthright for a mess of pottage. Sir Wilfrid Laurier is trying to do the same with yours.

Voices: Nothing doing (great applause).

Mr. Cuthbert then went on to the claims made of reduced prices under reciprocity and showed the fallacy of the claims. He wanted to know if there was any place that compared with Victoria as a place to live. He did not think so. He concluded with the mottoes of two great men, Sir John A. Macdonald, and a young man who is rising, until some day he will stand as high, Hon. Richard McBride, who said: "One flag, one Empire, one throne," and Sir John A. Macdonald's remark: "A British subject I was born; a British subject I will die."

### False Comparisons

Mr. A. G. Sargison exposed the falsehoods in lists of prices published in the Times newspapers. He had made enquiries from many Victoria dealers, and found the list of prices incorrect. Messrs. Sylvester Bros. had pointed out errors in twelve articles, and told him of experiences they had in getting potatoes from Seattle once to fill a shortage. When there was demand in excess of the usual, prices advanced. Any extra drawing on the supply always sent prices up. The list had been falsified, the quotations for Victoria being seemingly made on the prices when the articles first came on the market in Victoria. He told how Messrs. Brown & Cooper looked over the lists and pointed out their unreliability. It was simply a case of making figures lie. Mr. Sargison then went on to tell of the attitude of the American salmon canners, of how British Columbia canners had vainly sought to have the season continued to permit of filling their cans, while the Americans used everything, short of dynamite to fill their cans. He referred to how land was not to be had by Britishers or Canadians across the border, and went on to tell of the way natural resources were being sacrificed. He quoted Gifford Pinchot in the Scientific American, when the noted exponent of conservation across the border, said: "We of the United States are well known to be within measurable distance of a lumber famine." Mr. Sargison then read from the New York World, showing that the United States was to take off a duty of $1,000,000 on pulp wood and lumber. This was something the United States could not reciprocate in, pulp wood and lumber.

Mr. Arthur [illegible] sang "The Conversazione at Ballymooney" and "The Dominions Army," both songs being loudly applauded.

Mr. R. F. Green was the next speaker. He spoke of the desirability of maintaining the British connection intact. The Canadian Pacific railway had been built by Canadians with British money. At the present time there were the C. N. P. and the G. T. P. under construction. All this expenditure, amounting to millions of dollars, was designed to carry the traffic of the Dominion east and west. He declared that the wealthy and the efficient railway companies to the south of the border, were but waiting for the passage of the reciprocity pact to seize upon this trade and to divert it from the present channels to a north and south direction.

With respect to the cry of the Liberals that its introduction would mean cheaper living, he was willing, for the sake of argument, to accept as correct their assertion. He maintained that if this were brought about it would necessarily follow that there would be a reduction in wages. The majority of those present, he ventured to say, were not native British Columbians. They had come to the west because it had seemed a prosperous country, a land where the wages were high, where it was possible to make money. They had not joined the trend of travel towards the Pacific with the idea of securing cheaper living. He declared that there were none more contented or more happy than were the workingmen and the people generally of this province. Under such circumstances what was the use of making a change, especially of running the danger of trying an experiment which its most ardent supporters had to admit was after all but "a leap in the dark."

Mr. Green then spoke of two of Canada's natural products and the effect of the reciprocity pact upon them. The first was the pulp. It was included as one of the articles which would be admitted to the United States. Why had this been done? Because the Americans needed it for their paper making, was the answer. They were becoming short of their raw product in this line on the other side of the border. Theirs, in fact, was practically all gone. And so, through the astuteness of President Taft and Secretary of State Knox, this had been placed among the natural products that would cross the line free of duty and there it would be manufactured and disposed of to the consumer. The other was the lead which was to be found in large quantities in British Columbia. In this case it was not to be found in the reciprocity agreement. Why had it not been included? Because the United States had enough of it. It wasn't needed on the other side and so the duty of $15 a ton was to be maintained. This was the difference. This was how the pact worked out in one instance. Mr. Green argued, with respect to pulp, that it would be better for Canada, and of great importance to British Columbia where it was plentiful, if that article were protected. It would mean that factories would have to be established here, that the paper would be made on this side of the line, that the people would benefit from the money expended on the plant, the men employed there, and from countless other sources. And then the finished article, the paper that was needed so badly, would be sold to the Americans.

### The American Ambition

He did not believe that Canada would ever be driven into the arms of the United States. He did not think that any Canadian entertained the thought of annexation. He was willing to agree that probably the Liberals were as far from such an idea as the Conservatives. But he knew that the Americans were confident that the endorsation of reciprocity would be the first step in that direction. One had only to read the press of the United States to be convinced that such was the fact. He quoted from several journals in confirmation of his views. One of these papers had declared that if, after the time congress had spent in agreeing to the proposal, Canada turned it down there would be some speeches in the House of Representatives favoring the forcible imposition of the terms of the pact on the Dominion. In another he read an excerpt from a speech of President Taft when he said that Canada's chief interests then would be in the United States. From this the speaker said that the only conclusion was that the president's belief was that the raw products of this country would be manufactured south of the line. And in still another he read the words: "Should not the United States with reciprocity become more important to Canada than the imaginary Empire to which she looks." The dangers of the proposals of Sir Wilfrid Laurier's government, he contended, were forcibly shown by these utterances.

In concluding Mr. Green read the opinion of Mr. W. H. Rowley, manager of the E. B. Eddy match factory, on the effects of reciprocity. These, he said, he heartily endorsed. They put the situation clearly and succinctly before the electors. He hoped they would bear them in mind, in fact he was confident that on the 21st of September they would heartily endorse the sentiments by returning Mr. G. H. Barnard, the local Conservative candidate, to take his seat in support of Mr. R. L. Borden's new government. The opinions referred to follow:

The Taft-Fielding reciprocity pact will:

Delight Mr. Taft, and
Delude Mr. Fielding.
Denude our forests, and
Diminish our rainfall.
Deplete our fisheries, and
Destroy our fur-bearing animals.
Drag down our loyalty.
Demoralize our politics.
Disrupt our empire, and
Degrade our country.
Damage our export trade, and
Darken our outlook.
Daunt our bankers, and
Dishearten our manufacturers.
Daub our escutcheon, and
Debase our heritage.

Mr. Rowley said there are a few more D's applicable to and that might well be used in referring to this subject, but these he holds in reserve. He, however, added that the Taft-Fielding pact would also:

Strip our mines and stop our furnaces.

# CAMPAIGNING IN NANAIMO DISTRICT

## Mr. Frank H. Shepherd Holds Successful Meetings at Royal Oak and Saanichton—Enthusiastic Audiences

Mr. Frank H. Shepherd, the Conservative candidate in the Nanaimo district, spoke to two successful meetings last evening, addressing good-sized audiences at the Royal Oak hall and at the agricultural hall, Saanichton. At both places there were good attendances and the utmost enthusiasm prevailed as to the chances for success on the evening of September 21. The hearty applause which punctuated the remarks of the various speakers showed plainly that the farmers of the adjacent district are determined to hold to British connection and reject the reciprocity pact.

At the Royal Oak meeting Reeve Jos. Nicholson occupied the chair. He expressed the conviction that the district would give a big majority for Mr. Shepherd.

The candidate, on rising to speak, was greeted with cheers. He first of all commented on the editorial in the Times, in which a reflection was cast on his ability to become a good representative of the district in parliament—possessing, so the paper said, none of the qualities of statesmanship. On pointing out that he was willing to learn, he was loudly applauded.

Mr. Shepherd next dealt at length with the economic side of the reciprocity pact and made many telling points. It was the thin end of the wedge which would ultimately lead to annexation and Canadians wanted none of it. Then, again, the Liberals, were most illogical. They said to the farmers on one hand that the pact would get them a greater price for their products. On the other hand they told the consumers in the city that the cost of living would be reduced. How could both contentions be true at the same time? The thing was absurd.

### Strike at Digby Island.

Mr. Shepherd next dealt with the news published in the Colonist that there had been a strike of the men employed on the Dominion government buoy station at Digby Island, Prince Rupert. The Times had denied that there had been any strike. He had personal knowledge that there had and in this connection pointed out that while the men had been striking for an eight-hour day at the same wages the bill which had been introduced into parliament giving them this consession had received no support from Ralph Smith, who when it came to a vote, had absented himself from the House.

Mr. Shepherd on concluding his speech was loudly applauded. Mr. G. H. Barnard and Mr. John Jardine, arrived from town at this juncture and on entering the hall they were loudly applauded.

Mr. Barnard delivered a brief but very forceful address. He dealt at length with the reciprocity pact and was cheered when he referred to the duplicity of the federal government in the matter of the importation of contract labor in defiance of the provisions of the Alien Labor act.

Mr. Jardine addressed his remarks chiefly to the effects which the pact would have on the farming industry and he showed to the satisfaction of the audience they would have little to gain from the passage of the much-vaunted measure.

Mr. Shepherd next proceeded to the agricultural hall, Saanichton, whither Hon. D. M. Eberts, K.C., had preceded him. Here also Mr. Shepherd got a rousing reception and he repeated with telling effect the speech which he had delivered at Royal Oak.

### Too Patriotic.

George Harrison occupied the chair and the chief speaker was Mr. Eberts, who delivered a stirring and powerful address on the evils which would flow from reciprocity. He roused his audience to great enthusiasm when he declared his conviction that the people of Canada were too patriotic to surrender the magnificent heritage which had been handed down to them by those who in the early days had emigrated from the Old Land and hewn the splendid Dominion of today out of the wilderness.

Mr. Eberts traced the history of the trade relations between Canada and the United States from the year 1821 down to the present day and showed clearly that it had always been the policy of the people of the neighboring republic to attempt to starve Canada into submission. He read extracts from the leading newspapers in the United States tending to show that it was clearly the hope of the thinking men in that country that after reciprocity there would come political and commercial union.

He told of the vast sums of British capital which had been invested in the country and predicted that if the pact were to pass it would prove a disastrous blow to Canada's credit. He contrasted the difference in the standard of life in the Dominion and in the United States and pictured the great future which awaited this country if its people would but be true to the traditions and teachings of the old mother land which had given her birth. His prediction that the downfall of the Laurier government would follow this appeal to the people was greeted with cheers. The meeting closed with cheers for Mr. R. L. Borden, Hon. Richard McBride and the candidate.

# STRIKE OF CARPENTERS ON GOVERNMENT WORK

## Men Sought in Vancouver to Take Places of Those Who Want Eight-hour Day at Digby Island

Prince Rupert newspapers tell of the strike of the carpenters on the government work at the new marine and fisheries station being built under contract for the Ottawa government at Digby Island, near Prince Rupert. Notwithstanding that the eight-hour day rule applies to all government work, the carpenters had to work nine hours a day at 55 cents an hour. They went on strike for an eight-hour day with pay of $5. Telegrams were sent to Vancouver for men to take the places of the strikers.

# OPENING OF Y. M. C. A.

## Swimming Meet to be Held in Connection with Inaugural Proceedings

At a meeting of the Swimming Club of the Young Men's Christian Association, held at the Gorge camp last night, plans were made for their programme, to take place during the opening week of the New Building, that of September 25.

The programme was arranged as follows:

Monday—Novelty race, plate diving, exhibition of strokes, and a polo match between teams from Vancouver and Victoria. The understroke work will be conducted by F. Harling; breast stroke by L. Godfrey; back stroke by J. Thom; trudgeon stroke by F. Crompton; crawl by J. McNeil, and side stroke by W. Mino.

On Tuesday, the programme will be repeated, concluding with a polo match between teams from the local Y. M. C. A. and the Fifth Regiment. On Thursday there will be exhibitions of life-saving by W. Long and P. R. Pomfret.

On Thursday night, the season's handicap swimming races were finished at the Gorge and resulted as follows:

First, Leslie Moody, 17 points; M. Thomas, 15 points; W. Long, 13 points; W. Muir, 12 points.

The first two mentioned men will receive handsome medals during the opening week.

# SOCIAL AND PERSONAL

Mrs. Gordon Hunter from Shawnigan lake spent yesterday in Victoria.

Mrs. and Miss Black left for Vancouver last night to spend a few days with friends.

Mrs. (Dr.) McPhillips, of Vancouver, accompanied by Miss Dorothy McPhillips, is a visitor in Victoria and is staying at the Empress hotel.

Mr. P. H. Carroll and his son, Clarence, have returned from a four months' trip abroad. They were met in Vancouver by his daughters, Mrs. W. E. Burris and Mrs. W. H. Murphy.

Right Rev. Bishop MacDonald, who has been a patient at St. Joseph's hospital for the past two weeks or so, was able to return to the Palace on Wednesday.

A very delightful dance took place at the Alexandra club last evening, which was given by the members of the Victoria Cricket club to the visiting Philadelphia players. The beautiful ballroom was decorated with quantities of yellow flowers and greenery and the reception and sitting-out rooms were also most artistically decorated—the decorations being carried out by Mrs. Genge and Mrs. Hebden Gillespie and Miss Pooley. The bouffet supper was served in the tea room upstairs. A large number of Victoria people were present and many visitors from Duncan, Cowichan and neighborhood also came into town for the dance.

# SUGGESTS BASIS OF SETTLEMENT

## City and V. & S. Railway Company May Yet Reach Amicable Arrangement in Suit Now Under Way

If the suggestion made at a conference between the city solicitor, the attorney general and officials of the Great Northern railway, held on Thursday at Vancouver, is adopted by the city council, the executive council and the head authorities of the railway company, the long standing dispute between the city and provincial government on the one hand and the Victoria and Sidney Railway company on the other, will be brought to an amicable conclusion. While no definite agreement was formulated at this conference, and in fact the suggestion embodying the results of the meeting, are purely tenative the matter, as presented to the city council at last night's session of that body, appeared to be received with favor by some members of the board. To permit, however, of full discussion, the council will hold a special session next Tuesday evening when the definite action to be taken will be decided upon.

The city and government guaranteed bonds of the company eighteen and one-half years ago to the amount of five per cent, the city to the extent of $9,000 a year and the government, $6,000. The guarantee has yet six and one-half years to run. The company undertook to meet interest on these bonds when its net earnings exceeded operating expenses, but it has always claimed that until this year, expenses exceeded net earnings.

Recently the city, convinced that the company's earnings were in excess of expenditures, sued to recover about $170,000 paid out as interest to the bond holders and the government has signified its intention of suing for the $100,000 paid out in like manner.

### Shows Surplus

The city solicitor informed the council last evening that as a result of the Vancouver conference the company's solicitor admitted the company has for the past three years earned about $16,000 over operating expenses, though the government auditor has given it as his opinion that the company has been showing a surplus since 1905.

It was suggested that the city and government should not insist on repayment of the interest charges for those years in which the company's earnings were less than operating expenses, but that the city and government is entitled to a first charge on everything over that limit and that the company should immediately pay that amount, to be fixed by audit. The city would thus secure about $22,000 plus the $5,000 paid for this year's interest charges. In return the city would relinquish its claim to the $130,000 and get an undertaking that nothing further should be paid by the city for the remaining [illegible] and one-half years, the company [illegible] it an amount of $47,000. [illegible] total saved to the city [illegible] run to at least $100,000.

The city solicitor [illegible]

Northern officials would [illegible] city next Tuesday, when the [illegible] could be closed up if [illegible] sired. There would [illegible] the city to [illegible] company [illegible] would [illegible]

## Fall Opening In Our Juvenile Departments

How well we have bought for our Juvenile Departments for autumn and winter, can be plainly seen here today.

Children's Dresses, Frocks, Wraps and Chapeaux for the Infants, as shown by "Campbell's" possess a thoroughly little Parisian "chic" of their own—that "get away," so to speak, from everything of the hackneyed or "ordinary type" is splendidly displayed here.

Children's Dresses in Fine Serges, Panamas and many Fancy Checks, Sailor Dresses in English and American styles: the smart little "Peter Thompson" Dresses. The colour range, while varied, is not so profuse as to make selection confusing. Quite a number of our little dresses have the lace yokes and kimono sleeves.

From the above lines children from 2 to 14 years can be well suited and then we have a lovely range of MISSES' DRESSES, ages 6 to 14 years, that Mademoiselle will surely be delighted with.

NOTE—We have just received our first Fall shipment of Infants' Silk Bonnets, trimmed with lace and priced up from **75¢**. Also Hats and Bonnets in plush, silk and bear skin, priced up from **75¢**.

*On and After Labor Day (Monday) we shall be Open till 6 p.m. Labor Day, of course, we shall be Closed*

## THE PROPOSED DRY DOCK

Mr. Templeman made a brave effort to score a point in favor of his government because it has agreed to subsidize a dry dock at Esquimalt which is to be 900 feet long. So that we may not lay ourselves open to the charge of misquoting him, we will give his own words as reported in his own paper with all the emphasis that black type can give them. After speaking of the dimensions of the proposed dock he said:

> If the dock were only to be occupied by mercantile vessels it would be hardly necessary to go to the enormous expense which the construction of a dock of those dimensions would entail. **This is a naval dock, for use by vessels of the navy as well as by merchantmen, and the subsidy would not have been granted at the present time if it were not for the fact that Esquimalt is a naval station, that a portion of the Canadian navy is going to be stationed here, and that it was necessary that we should provide for the future.** (Cheers.) The dock will be of sufficient capacity to accommodate two Dreadnoughts.

We fear that Mr. Templeman is not any more in touch with naval matters than with military matters. He seems to have been under the impression that the navy yard constituted the defences of Esquimalt and to have quite forgotten the fact that the Work Point garrison and the fortifications were taken over by the government of which he is a member five years ago. He also seems to have been under the impression that Mr. George Phillips, who was in charge of the navy yard for the Admiralty, was in charge of the garrison and the fortifications. All this must have sounded very strange to the people of Esquimalt. He is equally unfortunate in his allusion to the proposed dry dock. He seems in this case to be under the impression that a 900-foot dock would be unnecessary for the use of the commercial marine, and would only be needed by Dreadnoughts.

Will Mr. Templeman regard it as an impertinence if we suggest to him what every one else in all the wide world is supposed to know already, that is that the only use there is for a dry dock 900 feet long and 100 feet wide is to accommodate the leviathans of the mercantile marine?

Will he also pardon us if we ask him to suggest some possible emergency in which two Dreadnoughts would be likely to seek a dry dock at Esquimalt at the same time?

May we remind him that his government has never so much as indicated the most remote intention of ever building even one Dreadnought anywhere, not to speak of two at Esquimalt?

May we also tell him that the whole squadron which the naval programme provides for this coast could be put in the proposed dry dock at the same time?

In view of the facts set out in these questions is it not absurd for Mr. Templeman to claim that the subsidizing of the B. C. Marine Railway to build a dock 900 feet long, which will not be a "naval" dock as he says, is a guarantee that naval vessels are to be built here, for the gravamen of the complaint against his government is that no ships will be built here? We asked him why his government has not taken the steps necessary to ensure the building of warships here, and he answered that his government has subsidized a private company to build a great commercial dry dock, which he seems to imagine is to be a naval dock.

We wish that Mr. Templeman had felt able to go further than he did in this matter and give the public something in the nature of a guarantee that the proposed dry dock will be constructed. He was very careful not to do this. We were not exactly promised, but were led to expect a shipyard employing 4,000 men in building vessels for the Canadian Navy; we are asked to accept as a substitute a promise of aid to a dry dock to be build by a private company, a promise that has yet to be supplemented by action.

## THE ELECTION.

It is stated that Sir Wilfrid Laurier welcomed the opportunity afforded him by the action of the Conservatives of appealing to the people with reciprocity as a campaign issue. Whether or not the Prime Minister is a statesman may be a matter upon which opinion will differ, but no one will dispute that he is an exceedingly astute politician. He watched the current of events as keenly as any one, and perhaps more keenly than most people. He realized that in the order of things there would have to be an election following redistribution, and that this could not in decency be postponed later than 1913. He knew that when that election came on he would have to face the very unsavory record of his party. He realized that without him his party would be leaderless and would of a certainty lose Quebec. We can easily believe that he was glad of an excuse for dissolution. He had to chose between almost certain defeat for the Liberals in 1913 and the possible chance of victory in 1911, when he would himself be able to lead them for what will undoubtedly be the last time, unless indeed there shall be a Liberal majority so small on the 21st inst. that a new election will have to be brought on as soon as possible. He saw in reciprocity an issue that would divert attention from the various reasons that can be advanced against his return to power. Hence while he was forced to dissolve the House, he really wanted to dissolve it, so that his last stand might be made upon a question which might be used to obscure all other issues. The electors will be exceedingly unwise to fall into this ingenious trap. They will make a great mistake if they permit the imaginary benefits of reciprocity to blind their eyes to the fact that a Liberal victory on September 21st means a continuation for another Parliamentary term of the misgovernment which has marked the record of the Liberal party.

You may believe or not believe that reciprocity will be of some commercial benefit to the country. You may believe or you may not believe that closer commercial relations with the United States will weaken our Canadian nationalism. But whatever your views may be on these points they ought not to influence you in any way upon the other issues, which as voters you are bound to take into consideration. What these other issues are we shall present from time to time and we have already presented some of them. Today we shall only draw attention to one of them, namely, the Laurier policy in respect to imperial affairs. There is no doubt that the leading figure among the over-seas representatives at the Imperial Conference was Sir Wilfrid Laurier. Neither is there any doubt that it was his idea of imperial development that dominated the Conference. No person, who has kept track of what transpired at that gathering, will dispute the proposition that the influence of the Canadian Prime Minister was directed against everything that seemed calculated to make for any closer unity of the Empire than now exists. The return of the Liberals to power means the endorsement of the Laurier brand of Imperialism, and he himself has been careful to deny that he is an Imperialist at all.

## INTERPROVINCIAL TRADE

Mr. R. B. Bennett, the Conservative candidate in Calgary, discussing the reciprocity agreement made the following very important statement in a recent speech:

> We have an enormous business with British Columbia; a tremendous business goes there every day, our elevators are filled with grain, our oats find there a ready market. Well, what has that got to do with it? I tell you what it has got to do with it. Do you know this, my friends, In the State of Oregon and Washington there is produced this year over forty million bushels of wheat and twenty million bushels of oats. Those oats lie here side by side with the Province of British Columbia; they have easy access to the Great Northern and other railways; they have water transportation from Seattle to Washington; they have a cheaper method of transportation than we have, and that market has been built up by the farmers of Southern Alberta and in that prosperity this city has shared, but it will be gone for ever.

It will be urged by the advocates of reciprocity that if Alberta cannot compete with Washington and Oregon in wheat and oats, it is only right that British Columbia should get the benefit of it. This might be true enough if Washington and Oregon were parts of the same country as British Columbia and Alberta are, but we venture to believe that the people of this province have no desire to build up the agricultural population of those states at the expense of the people of Alberta. It is infinitely more important to British Columbia to have Alberta prosperous than it is to have Washington and Oregon increase in prosperity. We can hope to do business with Alberta by sending our products into that province and by shipping merchandise there. It is of enormous importance to the British Columbia seaboard that the largest possible trade shall be developed with the great interior. Therefore, anything that will have a tendency to divert our trade to Washington and Oregon will of necessity have a great permanent and prejudicial effect upon our own cities. The consumer will think of these things. He will reflect that he not only wants to have a possible chance of getting some articles delivered to the wholesalers more cheaply than they are now delivered, for he will know that this by no means guarantees that they will be delivered more cheaply to him at his house. But more than all this, he will want to know if a policy, the sole recommendation of which is an unfounded assertion that he will be able to buy some things more cheaply, ought to be adopted, when he knows that its adoption will be a severe blow at the development of his own country.

Every person who has invested a dollar in real estate in this part of the province is deeply interested in the development of trade between the Coast and Alberta. The value of that real estate will not be enhanced by the building up of trade with Washington and Oregon. It will be enhanced by the development of trade with Alberta.

## THE SITUATION IN MOROCCO

A Paris despatch of August 23rd said that war with Germany is feared, and that the semi-official note that has been issued is very much in the nature of an ultimatum. The note declares that no settlement will be possible unless the claims of France in Morocco are placed upon such a footing that they can never be hereafter called in question and that Germany reduces her claims to a reasonable basis in Congo. The dispatch goes on to say:

> The secrecy surrounding the whole of the Franco-German conversations is regarded as ominous, and it is felt on all sides that the country is very near to war. The announcement that the great army manoeucres in September are to be curtailed, one corps taking part in them instead of two, "on account of the foot-and-mouth disease now prevalent among French cattle," is regarded as highly significant.
>
> The French public are even more skeptical regarding the pretext offered by the British government of a water shortage for the total abandonment of the manoeuvres this year. Both statements are considered to be mere excuses to hide the fact that the armies are being kept ready for instant action.
>
> Throughout the country the addresses of deputies and senators at the general councils of the various departments have been read with the greatest interest. All sound a note of extreme gravity, and urge the necessity of firmness.
>
> A similar stand is taken by the press, only its tone is still more emphatic. All the newspapers declare that the country does not intend to stand continental annoyances and hindrances from Germany, and that it is time her claims as to colonies are settled once and for all. This attitude of the press and political leaders, which is endorsed by the public all over the country, broods the hush of impatient suspense.
>
> The French press assures the Prime Minister of united support from all sections of politics. Apparently the situation is still difficult, but a telegram of yesterday encourages the belief that Germany will yield.

## THE TENDENCY OF TRADE

The local Liberal paper said last night: "Under the trade pact the tendency of trade will be for the consumer to buy from the nearest producer of foodstuffs and the producer to sell to the nearest consumer regardless of the international boundary." The same paper argues that the cost of living will be reduced in this province because the farmers of Washington and Oregon can supply us with foodstuffs. These farmers must be the "nearest producers" whom it has in mind. Now here is a proposition for it to deal with: If the farmers of Washington and Oregon are going to be able to send their produce into our market so cheaply that the cost of living will be reduced, how can the farmers in British Columbia hope to send their products into the United States and compete with the farmers of Washington and Oregon in their own dooryards? To state the case specifically: If an Oregon farmer can raise sheep and send them into Victoria and, after paying the freight, sell them at such a price that there carcasses will cost the consumer in Victoria less than he can buy local mutton for, how can the local sheep-raiser hope to send his mutton into Oregon and compete with the mutton raised there?

Will the advocates of reciprocity tell us if they seriously contend that the farmers of Vancouver Island are going to be able to meet competition from Washington and Oregon by sending farm produce into those states and thereby offset the loss of the local market that they will be bound to suffer if the contention of our contemporary is correct? Those who favor reciprocity must surely take on side of the case or the other. If they contend that foodstuffs are lower in the United States and therefore they will be lower here, they cannot contend that we can send our higher products into the United States and sell them in competition with the cheaper products. We are neither admitting nor denying anything that our contemporary advances as to prices. That is a question with which we will deal in another way. We are now treating the argument advanced in support of reciprocity as quoted above, and we say that it answers itself.

We are being told that the provincial government has bartered away "thousands of acres of valuable timber to aliens." At last accounts the timber was yet in the province and cannot be removed from the province unless it is manufactured here. Meanwhile the people who hold the right to cut the timber are paying vast sums into the treasury of the province every year for the purpose of holding it. Not one acre of timber lands has been sold by the present provincial government.

# YOUR HOME

OVER 50 YEARS OF HONEST DEALING HAVE MADE THIS GREAT STORE POSSIBLE.

Your Own Home—It has been your thought, hasn't it, for some time? And now you want it, don't you? And you don't know just how to go about it to get it?

## NEWS OF THE CITY

**Vital Statistics**—During the just ended month of August the vital statistics for Victoria showed totals of 66 births, 50 deaths and 86 marriages. Divided as to sexes, there were 39 births of male children and 27 of females; while the deaths showed 32 males and 18 females.

**Building Permits**—Building permits were issued yesterday by the building inspector to William Dunsford & Son for two dwellings on Alpha street to cost $3500; to J. L. Wilson, dwelling on Burwick street, $2300; to John Niblock, dwelling on Alma Place, $3000; to Mrs. John Niblock, dwelling on Michigan street, $4000.

**New Broughton Street Block**—A handsome two storey brick building is in course of erection on Broughton street at the rear of the proposed Union club building, for Mr. T. R. Cusack, printer, who will occupy the whole premises. The structure, which will cost in the neighborhood of $12,000, will, it is expected, be completed in about two months' time.

**Local Customs**—The customs returns for the month just closed totalled $375,389.65, an increase of $95,857.29 over the same month of the previous year. The duty collected during the month of August was $171,317, and the Chinese revenue amounted to $204,042, there being 407 arrivals during the month from China. The duty collected during the same month last year was $138,716.66, while Chinese paid $140,811.

**Government Annuities**—On Tuesday evening next in the George Jay school at 8 o'clock Mrs. Willoughby Cummings will deliver an address to the local Council of Women on the subject of Government Annuities, a topic on which Mrs. Cummings, on behalf of the federal authorities, is delivering addresses throughout the country. All those interested in the matter are cordially invited to be present.

**Will Give Entertainment**—Miss McBride of Oakland, Cal., will give an entertainment next Monday evening (Labor Day) in the schoolroom of St. Andrew's church at 8 o'clock, instead of on Tuesday, as announced. Miss McBride is a very clever mimic and possesses great skill in imitating the sounds of birds, animals and bells, etc., which she introduces into her rendering of amusing and instructive stories.

**Informant Missing**—Patrick McKanna was further remanded on the charge of assault in the police court yesterday morning, because of the non appearance of the informant, whom the police have so far been unable to locate. City Prosecutor Harrison stated that he was led to believe that the informant had been spirited away by some parties, in order that he could not testify in the case. The accused was remanded until this morning, and the police will make a further attempt to locate the informant.

**K. of C. Excursion.**—A large delegation of the Knights of Columbus from Victoria is leaving tonight for New Westminster to attend the exemplification of the three degrees of the order to be held in that city on Sunday, Sept. 3rd. Through the courtesy of the C. P. R. the Princess Beatrice will leave Vancouver on Monday evening at 11:30, thus enabling the Knights and the traveling public to attend the Labor Day celebration in Vancouver at Brockton Point, which is held under the auspices of the Knights of Columbus of Vancouver Council, returning on the night boat which will reach here early on Tuesday morning.

**Vagrancy Charges**—John McGinnis, William McLaren and E. Carlson, three men brought in at the same time were all charged with vagrancy in the police court yesterday. They were remanded until this morning and allowed out on their recognizance. M. D. Alfred appeared on remand in answer to the charge of having indecent pictures in his possession for circulation. He was represented by Mr. R. C. Lowe and elected for trial by a higher court. After he had been given a preliminary hearing, before the magistrate, he was committed for trial. A charge of vagrancy was also laid against him, and on this charge he was found guilty and sentenced to six months at hard labor.

**Fined for Assault**—A Japanese named Nagano, appeared in the police court yesterday charged with common assault upon a boy named Courtney Johnson. He was found guilty of the charge and fined $15. According to the evidence, Johnson with another young man was standing at the corner of Pandora and Government streets, at which corner the father of the accused keeps a store. During the course of the conversation between the two on the corner, the accused happened along and because of a misunderstanding, between the accused and Johnson some time ago, Nagano supposed that certain remarks were intended for him. He ordered Johnson to move along, and when he refused the informant claimed that Nagano struck him a blow on the mouth inflicting a nasty cut. The accused stated that Johnson had given him provocation for striking him, when he had used foul language towards him implicating his mother in the talk. This was denied by Johnson, and the magistrate was convinced that the accused was guilty of the assault preferred against him.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

## THE WEATHER

Meteorological office, Victoria, B. C., at 8 p. m., September 1, 1911.

SYNOPSIS.

A high pressure area central in British Columbia overlies the Canadian northwestern Provinces, while in the Pacific states and the Mississippi valley the pressure is comparatively low. Fine weather conditions with normal temperatures prevail both on the North Pacific slope and in the Prairie Provinces.

## SIR DONALD MANN'S TRIP OF INSPECTION

### Motors to Sooke Lake to Witness Construction Work in Progress on C. N. P. Railway.

Sir Donald Mann had an exceedingly busy day yesterday, spending some time in conference with Premier McBride upon details of the Canadian Northern Pacific's construction programme and in the afternoon motoring to Sooke lake in company with Executive Agent T. G. Holt, with the object of inspecting the roadbed and the progress of construction generally. He returned enthusiastic as to the beauty of the country which the line will traverse in southern Vancouver Island, and convinced that this part of the road will speedily win celebrity for its scenic charm. Sir Donald will remain a day or two longer in Victoria.

## NEWS OF THE CITY

**Pemberton Chapel**—The clergy of the Church of England will conduct the services during the month of September at the Jubilee hospital.

**Church Picnic**—A basket picnic will be held on Monday (Labor Day) by the Sunday school teachers and members of the Bible class of First Presbyterian church, at Goldstream. Parties will leave by coach from the church at 10 a. m.

**City Engineer Gets Work**—The tender of the city engineer for the erection of the new incinerator to be erected on the garbage wharf, the work to cost $4,829, has been accepted by the city council. Other bids were: Victoria Machinery company, $5,570; Hutchinson Bros. $5,725.

**St. Andrew's Picnic**—The annual picnic of the St. Andrew's Sunday school will be held on Monday, Labor Day. Cars will leave the corner of Yates and Government streets at 9:30 a. m. and 1:30 p. m. Launches will carry the picnickers from the Esquimalt wharf to the grounds.

**Anglican Synod**—Prayers will be offered in all the Anglican churches for the general synod which will open in London, Ontario, on Wednesday, September 6. This diocese will be represented by Dean Doull, Archdeacon Scriven, Rev. E. G. Miller and Rev. H. A. Collison, Messrs. P. Wollaston, H. J. Crotty, J. W. Taylor and J. Harvey.

**At Only One Location**—More applications for permission to preach upon the public thoroughfares have been received by the city council from street preachers of various sects. The rule recently adopted, after the trouble between the police and Socialists, will be adhered to by the city. No preaching will be permitted except on Yates street below Langley street.

**Effects of Electrolysis**—Now that the high tension wires of the B. C. Electric company are strung, and current will in the future be brought along city streets, the effect of electrolysis upon city water mains will be investigated by the city electrician. Mayor Morley at last night's meeting of the council, advocated a complete investigation and report pointing out that in other cities great damage to water mains has resulted by reason of the action of the electricity upon the metal pipes.

**Chinese Lottery**—Two chinamen giving the names of Ah Wah and Wong, were asked to plead to the charge of conducting a lottery, in the police court yesterday morning. After offering several excuses, which were interpreted to the court, they admitted their guilt, and were each mulcted the sum of $50 and costs by Magistrate Jay. The circumstances surrounding the arrests of the chinamen discloses a carefully conducted raid by three detectives, who succeeded in arresting the chinamen at their own game, obtaining the cash box ad lottery tickets which were being used.

**Day Case Adjourned**—Because Chief Carpenter's Mate Reed of the H. M. S. Egeria and Inspector Collins bound from England to give evidence were delayed as a result of the recent shipping strike the trial of John Day, charged with receiving naval stores knowing ther to have been stolen was adjourned by Judge Lampman until September 18th. Commander G. W. Vivian of H. M. S. Shearwater, put in an affidavit of particulars received by cable from the Admiralty of evidence Reed proposed to give to the effect that he had confessed to stealing naval stores and selling them to Day for $24 on one occasion and that Day was aware the goods were stolen, and that 20 drums of paint had been sold to John Houston of the Machinery depot for $75.

**New Tenders for Sewer Pipe**—Recently the city council decided that all pipe used in sewer construction must be of the citrified kind, cement pipe being barred. Further investigation has led the council to accept cement pipe and new tenders will be called for to be in by next Tuesday evening. The special committee appointed to report upon the tenders received made their report at last night's meeting of the council pointing out that the only tender in accordance with suecifications was that of the B. C. Pottery company for $35,750 compared with $25,890 of the Dominion Glazed Cement Pipe company, the latter company's tender being incomplete. The bid of Evans, Coleman & Evans for sewer brick at $31 per M. for 190,000, No. 1 grade brick, a total of $5,890, and $21 per M for 1,500,000, No. 2 grade brick, will be accepted. The city will also call for 250,000 No. 2 grade brick at $21 per M at a cost of $5,250.

**Motor Apparatus for City**—If the recommendation of the special committee of the city council appointed to consider the purhase of four pieces of motor apparatus for the fire department, a motor garbage truck for garbage collection, a water works motor truck and a motor street flusher, be adopted, a large sum will have to be provided by the city. The committee reported last evening and it was decided to purchase the street flusher for use on the paved thoroughfares. In regard to the other apparatus, the cost will total about $44,250, of which only about $10,000 can be financed this year. At the next meeting of the council, the question of ways and means will be considered. Probably a bylaw will be submitted at the same time as the Parks and Library bylaws, recently defeated, are again submitted to the ratepayers. The street flusher is the latest of its kind and will cost $8,150, the Cromer Motor Company of England agreeing to land it here and thoroughly test it to the satisfaction of the city, before payment is required.

## OBJECT TO SUNDAY WORK

### City Council Requested to Put Stop to All Unnecessary Labor On Sabbath

Complaining of the fact that recently manual labor has been carried on by contractors' employees on Sundays, principally in connection with the Dallas Road sea wall and the rock crusher on Belleville street at the rear of the Empress Hotel, a petition signed by nearly 200 persons had been presented to the city council praying that all works other than those of an urgent nature, be stopped on Sundays. The petition was considered at last night's meeting of the city council.

Alderman H. M. Fullerton urged that the petition be granted while Mayor Morley pointed out that it would be a little difficult to deal with it unless the city had the foresight to specify in contract works that no Sunday work should be permitted. It was a matter coming under the Lord's Day Act and action could only be taken on the fiat of the Attorney General.

Alderman Gleason stated that three weeks ago the employees of the Canadian Mineral Rubber Company were working on Sunday but at his request the company stopped such Sabbath labor and he believed the contractors building the sea wall would do likewise if requested.

Aldermen Ross and Langley pointed out that the sea wall construction must be rushed in order that the favorable weather and tides can be taken advantage of and Sunday work thereon is undoubtedly a necessity.

Alderman Gleason's suggestion that the contractors be asked to stop Sunday work and in the event of their not doing so, to appeal to the attorney general was adopted.

## POLITICAL EQUALITY LEAGUE MEETING

### Mrs. Bromley-Jubb Deals with Suffrage Question in General and Woman's Claim to Franchise

The Political Equality League held another pleasant gathering yesterday afternoon, this time at the residence of Mrs. Baer, 417 Vancouver street. The feature of the afternoon was the interesting address given by Mrs. Bromley-Jubb, who dealt in an informal manner with the question of suffrage in general. After repudiating the many things said against the suffragettes, the speaker pointed out that woman's claim to the vote was her claim to become articulate. It was all very well to talk of a mother's influence over her son. But sooner or later that boy would come to realize that his mother's power stopped at the garden gate, and was bounded by the hearthstone, for in legislative affairs, he would find her classed with criminals and idiots. She had often been asked why women wanted the vote. They wanted it because it was that indefinable something which made them part of the clan of the world. If they gave women the vote they would know that the race would be governed by justice, mercy and gentleness. The advancement of any nation could be traced back to the progress of its women. Women should have the vote because, she claimed, they did equal work for equal wages. Also they would not be biased by the three great forces which biased men—commercialism, alcoholism and partizanship.

She quoted part of an address made by Mr. Ellis Griffith, M.P., in favor of woman's suffrage, and went on to point out how hard women worked at election times in the Old Country, and how when all was over they found the polling booth door closed in their faces and were told that there was no further use for them. The claim made that if women got the vote the home would be lost, must be treated with respect. But all the same there were some five million women in Great Britain today who had to leave their homes to work in order to keep their homes.

During the afternoon Mrs. Parsons sang "Beloved, It is Morn," and Miss Maude Bruce recited. Mrs. Baer afterwards entertained her guests at tea.

## MINING PROGRESS IN REVELSTOKE DISTRICT

Great activity in the Revelstroke mining district is reported by experts who have recently visited that section of the province, the discoveries reported being of the most varied as well as important character. At Arrowhead, twenty-six miles south of Revelstoke, and the lake port of the C. P. R., a valuable marble quarry has lately been opened up by Mr. E. M. Jagran and associates, a large body of marble being in evidence which is found to be practically pure marble of the highest commercial standard. Revelstoke men are no wforming a company for the operation of the property. Near Camborne, development work on the claims owned by Mr. Cory McLinick has resulted in the uncovering of a large body of ore containing free gold. Samples taken at random contain much gold in such percentage as to be plainly visible to the naked eye. Several silver-lead properties in the vicinity are also producing most satisfactorily. The Spider mine, owned by A. Evans, and his associates, from which ore is now being shipped, has a three-foot seam 115 feet deep with two tunnels, both upper and lower tunnels giving clean ore carrying grey silver. Assays made fro mshipments run as high as $800 to the ton. It is hoped and anticipated that outside capital may be interested in this property and the claims adjoining, in order that tramways may be built and a large mine opened up. At present the work is being done by hand and the ore sacked and rawhided to Camborne. Another promising property in this section is the Revenue claim, owned by Drew, McLaren and associates, this also having easily produced some wonderful results. The owners have uncovered the seam in both upper and lower tunnels, exposing a large body of high grade silver-lead. It is hoped, as a result of the work done on these and neighbor properties, that Camborne will shortly come to the front as one of the permanent mining camps of British Columbia.

## JURYMAN FINED FOR NON-APPEARANCE

### Coroner Hart Gives Gentle Reminder That Those Summoned Must Be on Hand at Inquests

Because he failed to put in an appearance to serve upon the jury which was yesterday empanelled to investigate the circumstances surrounding the death of Thomas Mullaly, found dead in his room at the Rock Bay hotel on Thursday morning, death having been caused by a bullet wound in the head, Mr. J. L. Quagliotti, summoned as a juryman, was fined $5 by Coroner Hart. It is not often that Dr. Hart inflicts any penalty for the non-appearance of a juryman or for late appearance, but after the jury was forced to wait nearly fifteen minutes and Mr. Quagliotti did not appear the coroner levied the fine at the same time remarking that when an individual is summoned to sit upon a jury he must be in attendance at the hour set.

The investigation into the death of Mullaly resulted in a verdict that he took his own life while in a fit of despondency. Evidence was given by Mrs. Ellen Holder, propritress of the Rock Bay hotel, who went to deceased's room about 10 o'clock on Thurday morning to do up the room. As there was no response to her knock she opened the door and saw Mullaly lying upon the bed dead, a bullet wound in the head and a revolver grasped in his right hand. Deceased had been a roomer at the place for about two weeks. He had not been working since his arrival here and so far as Mrs. Holden knew had not been drinking to excess.

Police Constable Duncan, summoned by Mrs. Holden, stated deceased was lying upon his bed dressed with the exception of his coat. The shot had entered through the right temple emerging on the left side of the head. One out of the six cartridges in the revolver had been discharged. A receipt for dues paid the Bellingham lodge of the Oddfellows indicated that the deceased had been in that city as late as July 17. There were no signs of a struggle. The sum of thirty cents was all the money found in deceased's clothing.

Neil Jensen, a roomer at the hotel, also gave evidence of the deceased's apparent sobriety while a roomer at the hotel.

The jury was composed of Messrs. John Dilworth (foreman), C. Thompson, James Curtis, R. E. Blakeway, Frank Slugget, and W. J. Clark.

The police, who telegraphed to Mr. E. B. Pitman, secretary of the Bellingham lodge of Oddfellows, have been notified by him to hold the body pending further instructions.

## VICTORIA DELEGATES TO CONFERENCE

### Pacific Coast Convention of Churchmen Will Take Place at Seattle From September 7th to 10th

An international Pacific Coast Conference of Churchmen will be held from September 7 to 10th (inclusive) in the University of Washington buildings, Seattle, under the auspices of the Brotherhood of St. Andrew. Proceedings will open on Thursday at 8 p. m. at All Saints' church, with a "Quiet Hour," the subject being "The Fellowship of the Holy Ghost," and the preacher, Right Rev. Bishop Scadding, of Oregon. The conference will open formally at 9:30 the next morning in the University building, with Mr. A. J. Quigley, of Seattle, president of the Diocesan Assembly, Brotherhood of St. Andrew acting as chairman. The address of welcome will be given by Right Rev. Bishop Keator of Olympia. At 6:30 p. m. the Seattle Churchmen will entertain the visiting delegates at dinner in St. Mark's Church Sunday school. Very Rev. W. C. Hilks, Dean of Spokane, will preach at the public service following the dinner. Sectional conferences will be held on Saturday and a general conference at 10:40 a. m., on the subject of "Prayer," at which Rev. R. Connell of this city, will speak on "The Need of Intercessors." The afternoon will be devoted to recreation. On the closing day of the conference, the subject "Men and Religion" will be discussed in general conference, the speakers being John M. Locke of New York City, member of National Council B. S. A., and G. Frank Shelby of Denver. A farewell meeting will be held in the evening.

The conference will follow the community plan, that is to say, the delegates will be housed in dormitories of the university and will take their meals together in a large dining hall. Not only members of the Brotherhood, but all Anglican churchmen are invited to attend, and hospitality will be provided for all. It is hoped that the next conference will be held in Victoria, some time about next September.

The following delegates will go from this city: Rev. R. Connell, Rev. Dr. Gray, Messrs. G. E. Hodgson, H. Starkey, J. G. Harvey, J. A. Williams, G. E. Greene, Donne, Crompton, Barton, Tait, Greig, Davis, Allnutt, Butcher, and many members of the local junior chapters.

## OBITUARY NOTICES

**Pollock**—The funeral of the late Mrs. Minnie May Pollock took place yesterday afternoon from the Victoria Undertaking parlors, Rev. J. B. Warnicker officiated. The remains were interred in Ross Bay cemetery.

**Conner**—The funeral of the late Mr. John Conner will take place tomorrow at 2 p. m., from the F. O. E. hall. The deceased had been working at the Portland Cement Works at Tod Inlet and had formerly been employed as engineer on the cable ship Restorer.

# SHOP EMPLOYEES PRESENT DEMANDS

### Prospects on Illinois Central Are for Strike—Representatives of Men on Harriman Lines Give Views

CHICAGO, Sept. 1.—Representatives of the international union comprising the federated shop employees of the Illinois Central road, which has been refused recognition by President Markham of the Illinois Central, today gave thirty days' formal notice to the railroad that they desire alterations in their contracts.

SAN FRANCISCO, Sept. 1.—The Southern Pacific company, through Julius Kruttschnitt, vice president and director of maintenance of the Harriman lines, absolutely rejected today a demand for recognition of the Federation of Shop Employees, composed of five shop craft unions and 25,000 men. That such recognition, with its implications, would hamper the company in performing its duty to the public was the position taken by its officials. Union leaders asked for it on the grounds of economy and expedition, and admittedly because of a feeling that greater centralization of capital and power made corresponding centralization among various unions desirable. The unions involved have asked permission of their general officers to strike in the event of the refusal of recognition.

A conference lasting three hours and twenty minutes was terminated by Mr. Kruttschnitt's final answer, and following it, the union representatives, sober-faced, went into session by themselves to consider the strike vote, which they may accept as binding ,or may reject, refusing to sanction a strike.

Today's meeting began at 11 a.m. in the local offices of the Southern Pacific. President Kline, it was learned tonight, presented the cases of the unions and replied to questions put to him by the railroad officials, who acted without a formal spokesman during the discussion. He based his pleadings on economic grounds, and one of the officials said tonight "held his own" in the questioning from his angle of the case. Once or twice the discussion became lively, but it never ranged beyond coolheaded argument. The railroad officials, in their turn, took the position already publicly announced by Mr. Kruttschnitt, that the federation's power and demands would render it impossible for them to perform the duties and carry responsibilities which are imposed upon them by law, and which make them, in the words of Mr. Kruttschnitt, "quasi-public officials."

At the end of the conference, which came at 2.30 p.m., Mr. Kruttschnitt issued the following statement:

"A conference was held between the national officers of the shop employees and the Southern Pacific officials. Here he enumerates those present and continues: "In the conference, the question of the benefits to accrue to both the company and the men from federation was fully presented by the international officers, and the officers of the railroad company explained at length the embarrassment that the company would experience in performing its public functions if hampered by a committee vested with sufficient power to control, or partially control its operations.

"The discussion lasted from 11 a.m. to near 2.30 p.m. without altering the situation."

Some seeming ambiguity in the final phrase "without altering the situation" was cleared up tonight by a railroad official who said, authoritatively, it was intended to mean that there was no change from Mr. Kruttschnitt's previous position, outlined in a public statement in which he said recognition of the federation would be "impossible."

"We have not refused to see the men further, however,' said this official. "We are still prepared to grant any requests for a conference, although our position is final."

Union officials have made no secret of their anxiety to avert a strike if it can be done, and means to that end were canvassed thoroughly tonight.

"Our meeting with Mr. Kruttschnitt today was without result," said J. W. Kline tonight. "Neither side would concede anything. The demand that he recognize the federation was presented to Mr. Kruttschnitt, but he refused to grant it. However, we still have hopes of avoiding a strike."

### Idaho Forest Fires

SPOKANE, Sept. 1.—Fanned by high winds, a number of fires, set in slashings in the forest of Bonner county, Idaho, have spread to alarming proportions, and three fires are now being fought by men hired by the forest service, by the Pend d'Oreille timbermen's protective association and by individuals. One of the most serious is north of Sandpoint, between Humbird's camp No. 5 and the camp of the Sandpoint Lumber and Pole company, near Matchwoods. With the exception of the forest fire at Summit, four weeks ago, the forestry department is battling with one of the worst fires of this season three miles north of Naples, Idaho. The fire was started from the burning of slashings by ranchers.

### Quebec Terminals of N. T. R.

OTTAWA, Sept. 1.—More than half a dozen tenders were received today by the National Transcontinental Railway Commissioners for construction of the Grand Trunk Pacific terminals at Quebec, which will cost about $1,000,000. The contract will not be let for a week or ten days, however, as the terms of various bids have to be looked into.

## VANCOUVER RACES

### Splendid Driving of Barney Barns in Mainland Exhibition Meet

VANCOUVER, Sept. 1.—The features of the races at the exhibition track this afternoon were the splendid driving of Barney Barns and the fast time made in the five furlongs. The latter race was run in one minute flat. Summary:

First race: 2.30 consolation trot, purse $500—Yosemite first, Sweet Arene second, Rox Seal third. Time, 2:27½.

Second race: 2.05, consolation pace, purse $500—Foster first, Junior Dan Patch second, Texas Rooker third. Time, 2:15½.

Third race: Stallion pace, half mile, purse $500—Bland S. first, Francis J. second, King Russell third. Time, 1:06½.

Fourth race: Hunt club race cup, one and one-quarter mile—Tillie Ban first, Hankwell second, Cannie Campbell third. Time, 2:21¼.

Fifth race: Five furlongs, purse $500—Redondo first, Alder Gulch second, Third Chance third. Time, 1 minute.

### Moody the Victor

The Y. M. C. A. Swimming club's series of handicap races held during the summer was concluded last Thursday evening. The series was won by E. L. Moody with a total of 21 points. Second place was won by J. M. Thomas with a total of 19 points. Medals will be presented to the winners by the club.

A well known Des Moines woman after suffering miserably for two days from bowel complaint, was cured by one dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by all dealers.

## CORINTHIANS VS. VICTORIA TODAY

### Notable Football Match This Afternoon at Royal Athletic Park—Personnel of Rival Teams

One of the greatest soccer fixtures announced for this city for years is that between the Corinthians, the finest amateur team of Great Britain, and the chosen eleven of Victoria, which takes place this afternoon beginning at 3 o'clock at the Royal Athletic park.

After the splendid manner in which the Ladysmith eleven, without special practice or training, held the visitors down to a draw the locals believe that they are capable of giving them a good match. They are going on the field, at any rate, determined to furnish the strongest possible argument. The Britishers have had almost uninterrupted success since reaching Canada. The only defeat sustained was at the hands of Toronto.

A. Locksley has been chosen as referee. A. Wreford-Brown, of the Corinthians and J. B. Allen, of Victoria, will act as linesmen.

His honor, Lieutenant-Governor Paterson will kick off the ball.

The teams will take the field as follows:

**Victoria**

Goal, Beaney; backs, White and Prevost; halfbacks, Fersis, Pettigrew and Elton; forwards, Todd, Sherrit, Peden, Dakers and Buxton.

Reserves: Miller and Wilson.

**Corinthians**

Goal, G. G. Newman; backs, I. E. Snell and W. U. Trimmins; halfbacks, L. A. Vidal, M. Morgan Owen and R. G. Thompson; forwards, C. E. Brisley, S. H. Day, H. G. Bache, A. L. Corbett and B. O. Corbett.

## SOCCER ATTRACTION FOR LABOR DAY

Many of the local football enthusiasts are keenly interested in the match between Victoria West, the holders of the Island championship, and the Vancouver Athletic club's team, which won the same honor on the mainland, which is scheduled to take place on Monday morning at the Royal Athletic park. This is the first of two games for the British Columbia title. The other contest will be held later on the mainland. For the opening match—that is the one here on Labor Day—the Wests will line-up as follows:

Goal, Robertson; fullbacks, Whyte and Ross; halfbacks, Ross, Stewart and Brown; forwards, Warring, Kerley, Youson, E. Young, H. Youson and A. Brown.

## DATES OF OPENING SHOOTING SEASONS

### Grouse Legal Game on and After September 15—Pheasants and Quail Come in Fortnight Later.

Formal announcement was made yesterday, through the medium of the B. C. Gazette, of the open season for the shooting of grouse, pheasants, quail and deer. The dates are set forth as follows:

**Grouse**

That the disabilities as to the shooting of grouse of all kinds be removed throughout Vancouver Island, the Islands electoral district and the islands adjacent thereto, except the municipalities of the districts of North and South Saanich, between the 15th day of September and the 31st day of December, 1911, both days inclusive.

**Pheasants and Quail**

That the disabilities as to the shooting of cock pheasants and quail be removed in the Esquimalt, Cowichan, Saanich and Islands electoral districts from the 1st day of October to the 31st day of December, 1911, both days inclusive.

That the disabilities as to the shooting of cock pheasants be removed in that portion of the Comox electoral district known as Hornby and Denman islands from the 1st day of October to the 31st day of October, 1911, both days inclusive.

**Ducks and Snipe**

That the disabilities as to the shooting of ducks and snipe be removed throughout Vancouver Island, the Islands adjacent there to, and the Islands electoral district, between the 15th day of September and the 28th day of February, 1912, both days inclusive.

**Deer**

That the disabilities as to the shooting of deer on Vancouver Island, the Islands adjacent thereto, and the Islands electoral district be removed between the 15th day of September and the 15th day of December, 1911, both days inclusive.

### TODAY'S FIXTURES

Soccer—Corinthians vs. Victoria at 3 o'clock at Royal Athletic park. Lt.-Gov. Paterson will kick-off ball.

Cricket—Continuation of Philadelphia-Victoria game at 10.30 o'clock at Jubilee hospital grounds.

Yachting—Cruise of Victoria and Oak Bay clubs to Montague harbor, Galiano Island. Yachts and motor boats will leave at 2 p. m.

### MONDAY'S FIXTURES.

Soccer—Victoria West and Vancouver, amateur champions of island and mainland, meet here at 10.30 o'clock at Royal Athletic park in first match for B. C. title.

Baseball—Victoria and Vancouver Japanese teams meet at 3 o'clock at Royal Athletic park in a match for provincial championship. Pitcher Furchner, of Victoria Northwestern League club, umpires.

## ORIENTAL BASEBALL GAME ON MONDAY

### Victoria and Vancouver Nines Meet Here in Match for British Columbia Title

One of the most interesting sporting attractions which Victorians have been offered them for many months is the Japanese baseball match which is to be held on Monday afternoon (Labor day) at the Royal Athletic park. In this the principals will be the Victoria and Vancouver Japanese teams. It will start at 3 o'clock and Pitcher Furchner, of the Victoria Northwestern League team, has consented to umpire.

The prospects are that the sparks will fly from the word "play ball." The little men from the east, who have adopted Canada as their home, are almost as thoroughly roused over this inter-city conflict on the diamond as they were when their naval hero, Admiral Togo, passed through the city en route to the Orient after a tour of Europe and America. It would be impossible to find any athletes more enthusiastic over the game than are these sons of the Mikado. The rivalry, too, is at a high pitch. It was never more fevered between any island and mainland teams than it is in this case. The excitement has spread throughout practically the entire Japanese population of the two cities. They will be out in force. It is expected also that there will be a large crowd of the regular fans on hand to witness the Japanese interpretation of the great American pastime.

## AUSTRALIA IS THE PUGILISTS' MECCA

### Hugh McIntosh, Promoter, Sending Majority of Heavyweights to Antipodes This Fall

NEW YORK, Aug. 31.—Australia will be the Mecca of the pugilistic heavyweights during the coming fall, winter and spring. After considerable engineering and an expenditure of time and money Hugh McIntosh has succeeded in making contracts with the big men of the fistic arena that will give the sub-continent almost a glut of battles between burlies. McIntosh left London a short time ago for Sydney to make preparations for the greatest season he has ever had, and he carried away with him contracts signed by Jack Johnson, Sam McVey, Bill Lang, Marcel Moreau, the Frenchman, and others, all of whom have placed themselves unreservedly in the hands of McIntosh to fight or play, according to his dictates.

In addition to the above named he has assurance from Al Kaufman, Sam Langford and Jim Flynn to leave America shortly to take part in this fistic carnival. McIntosh is negotiating with Jimmy Clabby and Jack Dillon, of America, Owen Moran and Bandsman Rice, of England, and Paul Til and Eustache, of France, to make the trip across the line and throw in their fortunes with his plans for the coming campaign. Most of the latter named have already consented to go to the south with him.

McIntosh is to have absolute control of all of Johnson's business arrangements for the term of one year, from October 21 next. On or about that day Johnson accompanied by his wife and one other person, who is yet to be selected, will sail from London for the Antipodes, stopping en route to give lectures. Immediately upon arriving in Sidney Johnson will go into training for a twenty-round contest with Bill Lang [illegible] championship of the world. The big black holds Lang very cheap, and says that he will have no trouble in disposing of him. On Easter Monday, next year, Johnson will meet Sam McVey, also in Sydney, for the title. These are the two fights that Johnson has signed for, but according to the contract with McIntosh the latter has the right to match Johnson against Langford, Kaufman, Tommy Burns or Flynn, as he may elect. All told it is expected that Johnson will clear considerably over a quarter of a million out of this year under the management of the Australian.

As soon as McIntosh arrives in Sydney he will match Bill Lang and Jack Lester for a return engagement. McVey will be matched against the winner of this contest. Al Kaufman will be pitted against Bill Lang once more and if he wins will be asked to fight Langford. Then it will be the turn of McVey and Langford to renew their Paris battle. By a series of eliminating contests on these lines with Jim Flynn getting his chance, McIntosh hopes to produce the best white man and the best black man outside of Johnson, and should they not prove to be Lang and McVey they will be matched against Johnson in addition to the last named pair.

If Johnson does not meet Langford in Australia, the climax of next season will be reached in Paris, when on the eve of the Grand Prix McIntosh proposes to bring Lil Artha and the Tar Baby together for a finish go. With Langford Johnson will insist upon a side bet of $10,000, as he says that he is not going to allow Joe Woodman or little Samuel to gain any money through fighting him.

## WRESTLERS READY FOR GREAT MATCH

CHICAGO, Sept. 1.—Apparently in prime condition already for his match in defense of the world's wrestling championship title, Frank Gotch arrived today from Humboldt, Iowa, his home, and began vigorous training to remove any rough spots, preparatory to meeting George Hackenschmidt on the afternoon of Labor day at the American League baseball park.

Shunning reporters as far as possible, in a vortex of sporting writers from all parts of the country, Gotch carefully looked after the comfort of his mother and wife on his arrival today, and then plunged into hard work soon after breakfast. The champion appeared on the mat in the gymnasium of the Chicago Athletic association, where he tussled with Joe Rogers and Jess Westergard for two hard falls, within as many hours. They were hard falls for the wrestlers, whom Gotch took on, one after the other, without a moment's hesitation.

Gotch, according to the few who saw his work, appeared to have everything he ever had, and just a little more. He has been taught by "Farmer Burns," to whose belt Gotch fell heir by default. The farmer is cautious. He is, as Edward Smith, the referee, says of him, "oily." And behind those sinewy muscles of the Iowan whom "Farmer" Burns has trained so assiduously, there is a world of strength.

Followers of wrestling who have watched Hackenschmidt work for several days say that if the Russian wins the championship it will be because Gotch cannot endure the smothering. All the experts seem agreed on this. They say it will be the sinewy "cat" opposed to the heavy powerful Russian "bear," for they say Hackenschmidt isn't fast enough to be termed a lion.

Sporting men who have seen wrestling matches since the days when the sport was young in America, are agreed that while Hackenschmidt is the stronger, Gotch is a better master of the science of the game.

Gotch will work tomorrow and on Sunday as hard as he has worked during the seven weeks of training at Humboldt.

Hackenschmidt is [illegible] and he says that [illegible] a defeated champion [illegible]

ROBERT BURNS CIGAR

Mirth was his birthright—and he passed it on to you and me in his delightful verse—did Robert Burns. Satisfaction, thorough and genuine, ought to dwell in aught that is named for him—and it does, in the cigar we offer you. Mild, fragrant, good through and through, with never a bitter flavor from match to finish—TRY IT, that's all.

That English Effect

The rolling lapel, with its soft, yielding and natural effects, is one of the outcomes of our wholesale migration to see the Coronation festivities.

It is "that English effect," and it is illustrated in the Semi-ready style book this season. The truly English garment is characterized by the natural shoulders, the softness of the coat front and lapels, the precise roundness of coat corners, and the absolute absence of even the suggestion of a "dip." The vest is high cut and the trousers are "slim."

If you do not find in stock a suit that will fulfil your requirements, one can be made to special order from $18 up.

# VISITORS PLAY FAST CRICKET

## Philadelphians Retire the Local Eleven Rather Summarily in First Innings — Second is Better—Play Today

In the cricket match between the Philadelphians and Victoria, which was started yesterday morning and will finish this afternoon, starting at 1 o'clock at the Jubilee hospital grounds, the locals secured on the first inning, 106 runs, while the visitors got 148. In their second innings the locals did better, making a total of 152.

Victoria won the toss and elected to bat on an excellent wicket and with cloudless sky. A. Martin received the first ball from the pacy left-handed Fellows. He also received the first ball from Wood. At 9 Gillespie was bowled and wicket followed wicket in quick succession, 4 for 28 and the visitors were bowling and fielding like fiends. L. York and S. Gillespie made a stand, but still the wickets fell, 59-6-6. Leaver helped the score along with a much needed 22, total 92. The end soon came, all out for 106 and lunch was served.

Frankford started bravely. Foulkrod's all-around batting was a treat. Dr. Currie stubbornly held up his wicket. Several changes were rung in on the bowling, the score still mounted until Currie was run out at 85 for a useful 15. W. M. Fellows was the only one to assist materially with 22. The captain's 78 was a masterly display—in fact was over half the score. L. York took 6 wickets for 61 runs, and the side was disposed of for 148.

**The Second Inning**

Victoria took a new lease on life and began to show her form. Pilkington being forced upon his wicket at 6. The Gillespie brothers added 72 for the next wicket. Captain York was compelled to retire because a ball from his bat hit and cut through his lip. Will York retired at 137 with a much needed 15. Then L. York returned. At the call of nine, Victoria had lost 6 wickets for 152, or 110 to the good.

The game today will begin at one o'clock, and as it is in a most interesting stage, a larger attendance even than yesterday is expected.

**The Score**

The following is the score:

**Victoria—1st Innings.**

# FINE PROGRAMME FOR EXHIBITION

## Complete List of Attractions Prepared for Victoria's Fair Which Takes Place Next Week

The centre of activity in connection with the preparations for Victoria's exhibition, which will be held next week from Tuesday until Saturday, will be transferred from the city tomorrow, Secretary Sangster having announced that his office would be established at the agricultural association grounds then. The general arrangements are complete. All that remains is the attending to the innumerable details which invariably crop up at the last minute. The indications are that the fair will be the most successful from all standpoints that has been seen here for years. Fine weather is all that is desired and the prospects of it being ideal could scarcely be more promising.

**The Programme**

Appended is the complete programme:

TUESDAY, SEPT. 5.

10:00 A. M. Judging of Section 1, Clydesdales.

10:00 A. M. Judging of Section 13, Standard Bred Horses.

10:00 A. M. Judging of Section 1[illegible], Holsteins.

2:00 P. M. Grand opening of exhibition by His Honor Lieut.-Governor Paterson, accompanied by Hon. Richard McBride and others, to be escorted by a guard of honor composed from drafts from Military Cadets, Boy Scouts and Boys' Brigade. His Honor and party to be met at the gate by the president and officers of the association, escorted through the buildings and thence to the grand stand, where His Honor will declare the exhibition open. [illegible] riculture, and Mayor Morley, responded to by the President.

3:00 P. M. Judging of Heavy and Light Horses continued.

8:00 P. M. Horse Show.

WEDNESDAY, SEPT. 6.

10:00 A. M. Judging of Heavy and Light Horses continued.

10:00 A. M. Judging of Dairy Cattle, Sheep and Hogs.

10:00 A. M. Stock Judging competition, Sections 130 and 131, in the Horse Show Building.

12:00 M. Stockmen's Dinner.

2:00 P. M. Rough Riding Exhibition—Running Race, 3-Minute Green Trot or Pace, Running Race, 2:12 Trot, 2:18 Pace, Running Race.

8:00 P. M. Opening of the Horse Show by the Honorable Price Ellison, Minister of Agriculture.

THURSDAY, SEPT. 7.

(Victoria Day.)

10:00 A. M. Section 129, Grooms' Competition.

2:00 P. M. Stock Parade, Rough Riding, Running Race, 2:25 Trot, and 2:30 Pace, Running Race, 2:23 Pace, Running Race.

8:00 P. M. Horse Show.

FRIDAY, SEPT 8.

(Children's Day.)

11:00 A. M. Annual meeting in Woman's Building.

2:00 P. M. Stock Parade, Rough Riding, Running Race, 2:35 Trot and 2:40 Pace, Running Race, 2:15 Pace, Running Race.

8:00 P. M. Horse Show.

SATURDAY, SEPT 9.

(Vancouver Day.)

2:00 P. M. Stock Parade, Boy Scouts Display, Rough Riding, Running Race, 3-year-old Trot, Running Race, Free-for-All Trot or Pace, Running Race, Stallion Trot or Pace.

8:00 P. M. Horse Show.

**Crowds Assured.**

With the exceedingly reasonable rate of one fare and a fifth for the round trip from any point on the E. & N. railway to Victoria, it is expected that there will be an exceptionally large attendance from up-island points. Beyond a question the programme is one of the most attractive ever offered in this city. The agricultural and industrial features and the entertainment end are the best that have ever been witnessed in this section of the Pacific northwest.

It is a certainty that there will be record attendances every day. Of course Victorians are going to take a holiday practically for the five days, even the politicians easing up on the discussion of reciprocity that the citizens may be able to devote their time to amusement without interference. Coming right after Vancouver's big show the island exhibition is going to have the cream of the mainland's attractions and thousands are expected to attend from that city as, in addition to a regular $2.00 rate throughout the week, the steamer Princess Mary is engaged to make a special trip leaving on Friday night and returning on Saturday evening. As well excursions are coming from Seattle, Tacoma and Bellingham. So Victoria, unquestionably, will open her doors to throngs of visiting pleasure seekers and unless the exhibition management is far astray, there will be plenty to keep their time occupied.

**Medley of Side Shows.**

At the show grounds every one of the large buildings will be packed with things interesting, things instructive, things unique and things amusing. The grounds, which occupy more space than the farms of the majority of the wealthy south of the island homesteaders, will be gay with tents occupied with side shows of an exceptional high class standard. There will be French's wild animal show, one of the finest collections of the beasts and the birds of different parts of the world that has ever been assembled on the Pacific coast. In another marquees a collection of domestic animals and birds such as cats, dogs, chickens, etc., all trained so thoroughly as to seem almost human in their intelligence will be performing their different stunts. And so it will be all over the area—that expanse promising to bear a closer resemblance to a huge circus than ever before in the history of the exhibition.

In addition there will be the regular programme. Those items referred to are merely incidentals. Each afternoon there are the horse races, the daily list of events including two harness competitions and three running events. For these contests exceptionally large purses have been hung up and the entries are abnormally large. The harness races will have to be run off in heats. In them the horsemen of the island and the mainland are evincing exceptional interest because of the fact that Bland S., the famous trotter which has been smashing records throughout the northwest and has a record of 2.04 will take part. Other speedy equines are coming to match their fleetness with this well known horse. Runners are coming from Vancouver, Seattle, and other points to endeavor to take away some of the money offered.

One of the outstanding features, it is believed, will be the Horse Show. It is to be held every evening in the large pavilion situated on the grounds. Animals from Vancouver, Seattle, Tacoma, and from as far as Spokane, will participate in the long list of competitions. Master of ceremonies Clements, of New York, one of the ring experts of the continent, will be in charge. The show, as usual, will be the fashionable affair of the exhibition, practically all the boxes being already rented for the week.

**Broncho Busting.**

The Broncho Busting, too, is attracting considerable attention. Those who have witnessed these contests do not need to be told of their interest. The majority of the rough riders of the British Columbia interior are assembling in Victoria to try to tame the large collection of "bad acting" bronchos that has been gathered here from the range country of the interior. That these experienced riders will have a difficult time in subduing the [illegible] spirits of these horses there is no doubt and it is expected that many of the cowboys will be hurled from the [illegible] their respective mounts.

[illegible]

# VISITOR COMMENTS ON NEGLECTED DEFENCES

## Lieutenant Knox of British Navy League Deplores Conditions at Esquimalt—Danger Zone of Pacific

Lieut. H. T. C. Knox, chief lecturer of the Navy league, yesterday commented upon the neglect shown by the Dominion government regarding the Esquimalt defences. He said: "I listened to Mr. Barnard with much interest at the theatre the other night and think he made a great point when he showed how Sir Wilfrid Laurier had said the danger zone was in the Pacific and no danger existed on the Atlantic, while at the same time the Dominion government spent twice the money for fortifications, etc., on the Atlantic side to that spent for the Pacific. I listened with much interest to Mr. Barnard's references to the neglect of the defences. I say the two 9.2 guns still lying near Signal Hill and am told they have been lying there for six years, and nothing is being done to mount them. I would liked to have photographed them to show the neglect at this important station of Esquimalt."

Lieut. Knox returned east yesterday after making a visit to Alberni. He was greatly impressed with his island trip, the scenery, magnificent timber, etc., seen being something that could not fail to impress. He fell in with Col. Layard, of the Salt Spring branch of the Navy league at Alberni, and at an hour's notice the Colonel arranged a meeting which was addressed by Lieut. Knox from the verandah of the Somass hotel. Col. Layard also spoke and it is expected the result will be the formation of an Alberni branch. An invitation was received from Mr. E. A. Crofton, secretary of the Salt Spring island branch, but he was unable to accept it.

Lieut. Knox sent two cablegrams to the Navy league in England asking the officers to use their influence with the admiralty to endeavor to secure for B.C. the sloop-of-war Egeria which will be sold to the highest bidder at Esquimalt on September 18th and 19th.

**Congressman Assaults Clerks**

WASHINGTON, Sept. 1.—Representative Charles D. Carter of Oklahoma created excitement in the heart of the shopping centre today by assaulting four clerks, one of whom he declared, had insulted his 18 year old daughter, Miss Italy Carter, who was with him on a shopping expedition.

# SEATTLE RAILWAY FIGHT

## Judge Hanford Dissolves Temporary Restraining Order—Application for Permanent Injunction.

SEATTLE, Sept. 1.—United States Judge Cornelius H. Hanford today dissolved the temporary restraining order issued last week on the petition of August S. Peabody of Chicago, trustee for the bondholders, restraining the city of Seattle and the residents of the Rainier Valley from interfering with the Seattle, Renton & Southern railway in its attempt to collect second fares.

The dissolution of the restraining order removes all obstacles in the way of the city's attempting to force the Seattle, Renton & Southern to haul passengers within the city limits for a single fare and issue transfers interchangeable with those of the Seattle Electric company, which operates rival car lines.

The action of Judge Hanford today does not end the litigation, as arguments are to be heard on the application for a permanent injunction. Pending final action on the case, however, the court will not interfere with the city and the residents of the Rainier Valley in their contest with the Renton road.

The mass meeting last week, at which an effigy of Judge Hanford was hanged, was called to protest against the temporary restraining order dissolved today.

# MORE MEETINGS ARE ARRANGED

## Conservatives Fix Dates for Two Big Mass Campaign Gatherings to be Held at the Victoria Theatre

The central executive of the Victoria Conservative association has prepared a tentative programme of public meetings to be held in this constituency for the present election campaign in the interests of the party's standard bearer, Mr. G. H. Barnard. Two mass meetings will be held at the Victoria theatre—one on September 11 and another on the evening of September 19. Owing to the fact that the theatre will be occupied by Sousas band on the eve of election day, the closing rally of the Conservative campaign will be held at the Assembly hall, Fort Street.

The chief speaker at the meeting on September 11 will be the attorney-general, Hon. W. J. Bowser, K. C. Mr. W. H. Hayward, M. P. P. for Cowichan district will likely deliver an address at the meeting on the 19th and the premier, Hon. Richard McBride, will be present at the closing rally of the campaign.

There will be ward meetings nearly every evening from now on to polling day. Interspersed in this programme of business sessions will be a number of smoking concerts which have proved so popular in the past. These will be held at the Broad street hall, which all Conservatives are asked to remember has been engaged by the association as headquarters right up to election day.

All voters in the city in sympathy with the Conservative cause are invited to avail themselves of the use of the hall on all occasions they may wish to do so. Those who have a doubt as to whether they are on the Voters' list or who have a desire to know in which ward they will have to vote should visit the rooms and get the required information. They will find there a corps of obliging assistants to the honorary secretary, Mr. W. H. Price, who will be glad to answer all questions.

# FINLAND HAS TWO SPLENDID ATHLETES

Finland has two wonderful athletes who will surely figure well up in the next Olympic games—men who will undoubtedly be strong contenders for first honors in events that have heretofore been sure points for American athletes.

Niklander, a Finnish weight thrower who is credited with being the world's champion discus thrower in Europe, has been doing some great work with the saucer and the shot. He threw the discus from an Olympic circle (8 feet 2 inches), 146 feet at a recent meet in Finland at which many of the foreign athletes competed, and Niklander also did some good work with the 16-pound shot, putting the weight 46 feet 10 inches with the right hand and 38 feet 10 inches with the left.

When the Olympic games are held next year at Stockholm, Sweden, the shot will be put with both hands as one of the events and it looks more than likely that Niklander will be able to give either big "Babe" McDonald or Ralph Rose the rub of their lives.

The other Finn, Kohlemeinen, a younger brother of the professional distance runner who performed so well here last spring, won the five-mile run at the English championships last month. His time in that race, 25mins. 3 secs., was exactly six seconds better than Bonhag's American outdoor record for the distance. Indoors Bonhag has done five miles in 24 mins. 55 [illegible] When it is considered that Kohlemeinen was not pressed in the English events it seems probable that he will run much more rapidly if Bonhag meets him at Stockholm.

# BASEBALL RESULTS

### National.

PHILADELPHIA, Sept. 1.—New York's pennant prospects took a big jump today when McGraw's men won two pitchers' battles from Philadelphia. The first went by eleven innings. In the second game Marquard pitched a great game and came near a no-hit mark. The only hit made off him was a single by Luderus in the fifth inning. The latter was the only home player to reach first base, as Marquard did not give a pass, and was given perfect support, except for the muff of a foul fly by Myers. Tobert and Magee collided going after a foul fly and the former hurt his leg so badly that he was forced to leave the game. Scores:

| First game— | R. | H. | E. |
|---|---|---|---|
| New York | 3 | 9 | 1 |
| Philadelphia | 2 | 10 | 3 |

Mathewson and Myers; Moore and Madden.

| Second game— | R. | H. | E. |
|---|---|---|---|
| New York | 2 | 9 | 1 |
| Philadelphia | 0 | 4 | 1 |

Marquard and Myers; Slack and Madden.

PITTSBURG, Sept. 1.—Cincinnati and Pittsburg split even today in a double-header, the visitors taking the first. Wagner returned to the game today and was loyally acclaimed. Scores:

| First game— | R. | H. | E. |
|---|---|---|---|
| Pittsburg | 2 | 9 | 2 |
| Cincinnati | 3 | 9 | 2 |

Leifield, Camnitz and Simon, Gibson; Suggs and McLean.

| Second game— | R. | H. | E. |
|---|---|---|---|
| Pittsburg | 14 | 17 | 1 |
| Cincinnati | 4 | 8 | 5 |

Adams and Gibson, Simon; Keefe, Humphrey and McLean, Severoid.

BROOKLYN, Sept. 1.—Brooklyn won the first and lost the second game with Boston today. Burke, for Brooklyn, and Tyler, of Boston, were both wild in the first game and retired. Boston won the second game by virtue of Brown's steady pitching and timely hitting. Score:

| First game— | R. | H. | E. |
|---|---|---|---|
| Boston | 5 | 7 | 1 |
| Brooklyn | 8 | 6 | 1 |

Tyler, Griffin, Hogge and Kling; Burke, Rucker and Bergen.

| Second game— | R. | H. | E. |
|---|---|---|---|
| Boston | 4 | 10 | 1 |
| Brooklyn | 3 | 7 | 1 |

Brown and Raridan; Knetzer, Scanlon and Erwin.

### American.

CHICAGO, Sept. 1.—Four times the great Lajoie stood before the great Walsh, and three times the great Lajoie struck out; but that was not enough, there was team play and hitting at crucial moments and Cleveland won. And besides it all, there was Chouinard, who stood calmly in front of second base while Olsen played the old "hidden ball" stunt, and was touched out. It was the feature of an otherwise featureless game.

| Score: | R. | H. | E. |
|---|---|---|---|
| Chicago | 1 | [illegible] | 0 |
| Cleveland | 2 | [illegible] | [illegible] |

Walsh and Block; Gregg and Smith.

BOSTON, Sept. 1.—Although Boston outbatted Philadelphia in both games today the champions won both contests. The first was a pitchers' battle between Bender and Cicotte, the latter having a shade the better of it. Uncertain fielding by Boston lost the second game. Scores:

| First game— | R. | H. | E. |
|---|---|---|---|
| Boston | 0 | 8 | 1 |
| Philadelphia | 1 | 6 | 0 |

Cicotte and Carrigan; Bender, Plank and Thomas.

| Second game— | R. | H. | E. |
|---|---|---|---|
| Boston | 1 | 7 | 2 |
| Philadelphia | 2 | 5 | 0 |

R. Collins and Carrigan; Plank and Thomas.

NEW YORK, Sept. 1.—Caldwell held Washington to five scattered hits today and shut them out. Groom hit for two triples and a double in the second inning, and Becker, who succeeded him, was found in the fourth and fifth innings for four runs. Walter was put out of the game in the fourth for protesting a decision.

| Score: | R. | H. | E. |
|---|---|---|---|
| Washington | 0 | 5 | 0 |
| New York | 6 | 9 | 1 |

Groom, Becker and Street; Caldwell and Blair.

### Coast.

SAN FRANCISCO, Sept. 1.—Backed by perfect support Martinoni held the Portland batters to two hits today, and Oakland won, 5 to 0. Steen was effective until the sixth when Martinoni was safe on Steen's fumble, Hoffman walked, and both advanced a base on Steen's wild heave to second. Martinoni was out at the plate when he tried to score on Ware's infield hit, but Culshaw doubled, scoring Hoffman and Wares. Before Steen steadied down in the seventh Oakland hammered out two singles and two doubles which, with Peckinpaugh's error and a walk, netted three runs.

| Score: | R. | H. | E. |
|---|---|---|---|
| Oakland | 5 | 8 | 0 |
| Portland | 0 | 2 | 3 |

Martinoni and Mitze; Steen and Kuhn.

SACRAMENTO, Sept. 1.—After holding Sacramento to three scattered hits and one run in eight innings, Raleigh let up in the ninth and four hits and four runs brought the locals up on the short end of a 9 to 5 score. The game was the tenth straight defeat the Senators have suffered and was the fourth straight win for Vernon in the present series. Byram allowed only six hits, which the Villagers made count for nine runs when, aided by seven local errors, Vernon hit him only in three innings and in each of these the visitors registered more runs than hits.

| Score: | R. | H. | E. |
|---|---|---|---|
| Vernon | 9 | 6 | 0 |
| Sacramento | 5 | 7 | 7 |

Raleigh and Hogan, Hasty; Byram and Thomas.

LOS ANGELES, Sept. 1.—Inability to hit effectively the curves of Pitcher Agnew, cost the game today with Los Angeles, score 2 to 1. It was the tenth straight defeat for the Seals. The Angels bunched hits in the fourth on Browning but outside of that and the first inning, were unable to do anything with his offerings or with those of Miller, who took his place at the beginning of the eighth.

| Score: | R. | H. | E. |
|---|---|---|---|
| Los Angeles | 2 | 4 | 0 |
| San Francisco | 1 | 7 | 1 |

Agnew and Abbott; Browning, Miller and Berry.

**Crystal Theatre**—"Red Eagle's Love Affair" is the story of an Indian becoming educated through his love for a white girl. Later on telling her of his love; he is laughed at and returns to the primitive life, a good story well acted. "Davy Jones and Capt. Bragg" are two rivals for the hand of the handsome widow, the trials and tribulations which follow are very laughable. "The Twin Towers" is the best picture shown here for a long time and you will guess for a time how it will turn out. "The Insubordinate Soldier" is a good military drama. See the new curtain which makes the pictures so realistic. As we said before and shall keep on saying the best house from a comfort standpoint and the best pictures that can be had in Victoria. Remember we are giving away $50 to the one guessing nearest to the majority of the winner in the coming Dominion election.

## For Quick Profit

We have a corner on Pandora Avenue, near Douglas, at a price $100 per front foot less than any inside property in the same block, $19,000 cash will handle and should bring a profit of at least $25,000 inside of three months.

Prices Go Up September 15th

# THE QUESTION EVERYBODY IS ASKING

## Where Is This Fort St. Subdivision?

Buy Before The Prices Rise

Answer—It is situated on the Fort Street Car Line, at Foul Bay Road. It is easy to find owing to improvements which are being completed on Foul Bay Road and Trent Street. It is the place worth finding.

### Things to Remember

That the Fort Street car line runs past the property.

That the lots are all cleared and free from rock.

That the soil is very suitable for garden purposes.

That the lots will all face upon a graded street.

That water will be laid as required.

That there is a lane in the rear of all lots.

That the prices go up Sept. 15th.

***Present Prices From***

**$500**

LOOKING TOWARDS FORT STREET

### Better Decide Today. Why?

Because these lots are going quickly. Twenty-eight lots have been sold.

Because every lot sold means the choice of another opportunity gone for you.

Because these lots are low at the price and offer you a splendid investment opportunity.

Because the price of these lots goes up September 15th., after that you pay the profits of the man who buys today.

Because these prices will never come again.

**A Good Head Piece**

"He that has a house to put his head in, hath a good head piece." So said King Lear. Lear was right, a house—particularly a house of one's own—is a good head piece. But to give lasting satisfaction and ensure permanent contentment it must be properly designed, and built under the supervision of an experienced and competent architect. It is a fact that the designing of a house is in many respects a more intricate problem, demanding greater skill, more diversified knowledge and closer attention than the planning of an office block or apartment houses. Planning houses is one of our specialties. In this studio the aim invariably is to get away as much as possible from the stilted and conventional, and to give the ideas of our clients virile, artistic and adequate expression—to give the pure gold of convenient arrangement and durability the impress of beauty.

If you think of building now or in the future you are cordially invited to call or send a postal for our magazine.

Hugh B. Smith, general chairman of the lodges of the Brotherhood of Locomotive Firemen and Enginemen on the Northern Pacific, and W. F. Carter of Peoria, Ill., president of the national organization, returned yesterday from a trip to Portland, Seattle, Tacoma and Vancouver. [illegible]

# On the Waterfront

## FINDING IN SECHELT CASE

### Marine Court Censures Steamboat Inspector for Permitting Lost Vessel on the Route

### SUGGESTS THAT BOARD BE APPOINTED

### Competent Tribunal of Inspectors Suggested with Knowledge of Naval Architecture and Stability

The finding of the marine court which sat to investigate the foundering of the steamer Sechelt on March 24th off Beechy head, consisting of Mr. Justice Martin and Capts. Neroutsos and Reid, given yesterday morning, criticised the steamship inspectors and recommended that a board of inspectors be appointed with at least two more inspectors than employed at present, one to be expert in naval architecture and competent to pass on the stability of vessels. The Sechelt was considered unfit for the run she was on and should not have been passed by the Dominion government inspector, J. C. Kinghorn, for that route. The cause of the wreck was not determined, but the court considered that her cargo on the main deck shifted after she fell off into the trough of the sea and heeled over, water then flooding through the open apertures of her hull. The finding was as follows:

Having fully investigated facts relating to the loss of the screw steamship Sechelt of the shade deck type, Harold Victor James, master; registered tonnage 71;13, length 73 feet; beam 15.2 feet; depth 7.4 feet; 16 h.-p. engines; built of wood in 1893 at Pontiac, state of Washington, U. S. A., which foundered with all hands (about 18) on the 24th of March, 1911, off South Bedford island, Beecher Bay, Straits of Juuan de Fuca, this court is of the opinion that:

1. While in the absence of direct testimony it is impossible to state definitely what brought about the disaster, yet it seems to be clear that from some unexplained cause the ship got into the trough of the sea, with a heavy westerly wind and hard squalls prevailing, which caused her to heel to such an extent as to allow the water to flow into the body of the ship through the apertures on the main deck communicating with the engine and boiler space, and forehold, and it is probable that cargo on the main deck, of light iron rails, car wheels and axles, shifted in the heavy rolling to an extent sufficient to deprive the ship of ability to right herself.

**Error of Judgment.**

2. The ship though given a certificate to carry forty passengers under section 1, part VII, of the Inspection Rules, was not fitted for the Victoria-Sooke route, for which she was licensed, and the inspector of hulls, John C. Kinghorn, should not have given her permission to run on it. Furthermore, a grave error in judgment was made in classing the route in question as being one within "the island waters" of Canada, as defined by sub-section (g), section 72 of the Canada Shipping Act, because it comes clearly within the exception "salt water bays and gulfs on the sea coast" specified in that section, and though part of the route, viz., from Victoria to Race Passage, would in general be more or less sheltered, except from southeasterly gales, yet after passing through that passage a ship would be exposed to the full force of prevailing westerly gales from the Pacific ocean. The Sechelt was quite unable to cope with such conditions or with the ordinary stress of wind and weather to be encountered in that locality, because of her peculiar construction whereby the main deck was in effect made the weather deck, and also because of the insecurely protected apertures above mentioned, which properly come within the scope of section 14 of part VII. of the Inspection Rules, requiring that "gangways and openings on or below weather deck" should "be fitted with covers in such a manner that they can be quickly and efficiently secured;" with other similar provisions respecting coamings and hatch covers intending to safeguard the bouyancy of the ship, which were insufficiently observed or ignored, though the section declares them to be "important items to be noticed by the inspector in steamboats subject to heavy seas."

**Built as Tug.**

3. The ship was originally designed and built as a tug for service on Lake Washington, U. S. A., but of late had much additional superstructure added for the accommodation of passengers which tended to lessen her original stability, and encouraged the carrying of freight on the main deck something not contemplated in her original design, and which unless duly compensated for by weights below would be a menace to her stability. In all cases where similar changes have been made, it is essential that inspectors should, before granting a license, be particularly careful to satisfy themselves by actual test if necessary, that the stability has not been jeopardized, and also place a limit upon the weight of cargo to be carried on or above the main deck. Generally speaking the type of vessel represented by the Sechelt [illegible] variation, in the [illegible] weights, including ballasting, and to the manner in which the cargo is stowed in order to preserve stability.

4. Though section 24 of the said inspection rules provides that "the steering gear shall be inspected and thoroughly examined at least once a year" by the inspector of hulls; yet there is no specific evidence that this was done, which is the more to be regretted because it was suggested that the cause of the ship unaccountably getting into the trough of the sea was owing to some defect in the steering gear. It is surprising to observe that in the printed form of return of inspection no reference is to be found to this essential matter.

5. Though the Sechelt had been stranded in the Vancouver Narrows on the 7th of August, 1910, and again on Bowen island on the 5th of November, 1910, and her main engine had broken down on the 8th of December, 1910, suffering on each occasion a "material degree" of injury to her hull or machinery as defined by the statute (secs. 18 and 21 of the Shipping Act of 1908) which injury was in two cases at least reported to the Hull Inspector, yet permission was given to her owners to change her run from Vancouver to Sechelt to a more dangerous one, viz., Victoria to Sooke, without any inspection, though full powers are given to the inspector in such cases by Sec. 693 of the Shipping Act and Sec. 9 of the Inspection Rules. If such inspection had taken place it would doubtless have cleared up the serious question raised by Chief Engineer A. G. Kick, who stated that at the time he left the ship, a week before the disaster she leaked astern to a considerable extent and that a proper bilge pump had not been fitted, therefore he reported the matter to Captain James, who should have reported it, as should also the engineer, to the inspector under Secs. 18 and 21, and it is noteworthy that these complaints would be consistent with the surveyors' reports before us, made by the underwriters' surveyors, of the damage resulting from said accidents. In the present case the neglect to inspect was the less excusable because the inspector admits he was notified on the 14th of March last after 5 p. m. that the ship was in the dock at Victoria but he says he was leaving for Vancouver that night and was so satisfied of her good condition, and her date of annual inspection under (Sec. 588 of the Shipping Act) was so near (12th of April) that he did not think it was necessary to inspect her then, though she had not been inspected since the 12th of April, 1910.

**Protection of Public.**

6. With respect to the verbal permission given by the inspector of hulls to change the route as aforesaid, we observe that under sections 589 and 596 of the Shipping Act, and section 1, part vii., of the rules, the certificate is to define the limits in which the vessel is "fit to ply" and a duplicate of the certificate must be posted up. . . . "in some conspicuous part of the steamboat for the information of the public." In the present case the certificate states "that the steamboat is permitted to run on the waters between Vancouver and Sechelt," the consequence being that in open violation of sections 589 and 596 of the statute the vessel was really running on a route for which she had in fact no certificate. The protection of the public demands that such grave matters, which may have, as here, the most lamentable consequences and which are contemplated by the document, should not depend upon the mere recollection of a verbal permission.

In conclusion, this court is strongly of the opinion that in view of the recent great increase of shipping on this coast, with every prospect of a still greater and much more rapid increase in the near future, the time has come when his excellency the governor-general in council should be humbly advised to give fuller effect to the powers conferred upon him by sections 572, 573, 574 and 582 of the Canada Shipping Act, and appoint additional inspectors so that in effect a local board of inspection for British Columbia may be established with a deputy chairman under sections 682-6 of said act, the said board to have in addition to the present two inspectors (of machinery and of hulls and equipment) two other inspectors, one of whom shall have charge of the inspection of equipment solely, and be a master mariner qualified for all waters, and the other to be an additional inspector of hulls who shall have special knowledge of naval architecture generally and in particular a knowledge of the stability of ships which this investigated has demonstrated the urgent need of.

No ship should be allowed to carry freight or passengers for hire without having first obtained the certificate of the board collectively, that she is in all respects suitable for the route on which she is to ply, instead of the two individual and inadequate certificates now in use, thereby placing the responsibility for safeguarding the traveling public upon every member of the board, which in practice will lead to greater care being taken in the issue of certificates, the necessity for which has abundantly appeared by recent deplorable and easily avoidable disasters.

**Queen Arrives**

The steamer Queen of the Pacific Coast Steamship company, Capt. Zeh, reached the outer wharf early yesterday morning from San Francisco with 160 passengers and a good cargo, including 120 tons for local consignees, mostly vegetables and fruits from California. The passengers who landed here were: Miss E. Michael, Mrs. French and child, J. Dykes and wife, N. R. Claque, J. A. Vantassel, Geo. Tungate, Miss Mary Ferrique, Geo. Cowan, Miss F. McIlroy, T. R. Naguard, Geo. Stewart, J. C. Gillespie, J. Ireman, Mrs. L. J. Corbett and two children, A. W. Birmingham and O. M. Swanson.

[illegible]

The government steamer [illegible] returned to port yesterday from a cruise [illegible]

## TWO LINERS IN PORT TODAY

### Oanfa Expected from Liverpool and Way Ports and the Canada Maru Will Sail Outbound to Hongkong

The steamer Oanfa of the Blue Funnel line will arrive at the outer wharf today from Liverpool via the usual ports of call in the Orient, with a large cargo of general freight, and the steamer Canada Maru of the Osaka Shosen kaisha will sail from the outer wharf homebound to Hongkong via the usual ports of call in Japan. The Canada Maru will take a full cargo including flour, machinery, lumber and general merchandise.

The Minnesota of the Hill line passed up to Seattle yesterday from the Orient. A few days ago it was announced that the Minnesota had communicated by United Wireless from 3090 miles at sea. With the arrival of the steamer it developed that the message had been relaid by the Sado Maru and Umatilla to Astoria.

Following the Oanfa en route to Victoria are the Orteric of the Weir line, Tacoma Maru of the Osaka Shosen kaisha and Awa Maru of the Nippon Yusen kaisha. The Orteric and Tacoma Maru are due next week.

Much sugar is being shipped to Canada of late from Japan and yesterday advices were received that a contract has been entered with the Suzuki Shoten of Yokohama for shipment to Canada of 75,000 bags of refined sugar. Delivery is to start in January and the price will be calculated on the market prevailing at the time.

## PRINCE ALBERT STARTS SERVICE

### G.T.P. Steamer Leaves on First Trip North at Noon—Will Alternate With the Henriette.

The steamer Prince Albert of the G. T. P., Capt. McKenzie, which has just completed overhaul by the B. C. Marine Railway company, leaves for Boat Harbor today at noon. Before leaving she is to be swung for compass adjustment by Captain Jarvis of the firm of James and Jarvis. She goes to northern British Columbia ports to inaugurate her new freight service alternating with the Henriette on a weekly schedule to Prince Rupert, Naas and way ports. The Prince Albert, formerly the Bruno, is equipped with passenger accommodation. She took 100,000 feet of lumber from the Canadian-Puget Sound Lumber company's mills, and about 50 tons of general freight, including shipments of provisions for Hazelton and other interior points.

Among the calls arranged on the schedule of the Prince Albert and Henriette are the following: Powell River, Alert Bay, Hardy Bay, River's Inlet, Namu, Ocean Falls, Bella Bella, Swanson Bay, Work Island, Lowe Inlet, Claxton, Port Essington, Skeena River canneries, Prince Rupert, Port Simpson, Naas River canneries and Goose Bay.

**For Skagway**

The steamer Princess Royal left for Skagway last night with a fair complement of passengers and much freight.

**Le Pilier Due**

The French ship Le Pilier is due from the United Kingdom with a cargo of general merchandise. The Le Pilier which is out 143 days, has been chartered to load grain on the Sound for her return voyage. The British ship British Isles has been ordered north from Calders in ballast for wheat cargo.

**Mahn at Capetown**

According to advices to the Merchants' Exchange the German bark Frieda Mahn, Capt. Otto Niemann, arrived at Capetown with a portion of her cargo damaged. The Mahn loaded at British Columbia ports, leaving New Westminster June 2 for South Africa. She made the passage in 80 days, which is better than the average.

**SICK HEADACHES AND NERVOUSNESS**

"Fruit-a-tives" Completely Cured Me.

Lakelet, Ont., May 12th, 1910

"It is my firm belief that every woman should take "Fruit-a-tives" if she wants to keep herself in good health.

"Before taking "Fruit-a-tives" I was constantly troubled with what is commonly known as "Nerves" or severe Nervousness. This extreme Nervousness brought on the most violent attacks of Sick Headache, for which I was constantly taking Doctor's medicine.

"Constipation was also a source of great trouble for which the Doctors said I would have to take medicine all my life but "Fruit-a-tives has banished these troubles and I am a well woman.

"When I started taking "Fruit-a-tives," I took four at a time, but have reduced the dose so that it is only necessary for me to take one in a week, and that one "Fruit-a-tives" tablet every week keeps me well."

MRS. FRED GADKE.

It is wonderful how quickly women get better when taking "Fruit-a-tives." These famous fruit tablets relieve headaches and tone up the whole nervous system. They regulate the bowels strengthen the stomach, stimulate the appetite, and take away that pain is the back. Pale, weak, nervous women should always use "Fruit-a-tives."

50c a box, 6 for $2.50, trial size, 25c At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

**Canadian Co-Operation in Imperial Defence.**

On Monday last the Hon. W. L. Mackenzie King minister of labor in the Dominion government, was nominated as the reciprocity candidate for the constituency of North Waterloo. In his speech accepting the nomination he referred to the questions of imperial defence and the establishment of a Canadian navy and in the latter connection to the counter-proposal made by Mr. Borden to go to Britain's aid with a Dreadnought and a cash contribution. As reported in The Globe, Mr. King then said: "Are the people of this country going to place at the head of affairs a man who will be precipitated into such a position as this, who will take from the treasury of this country and who would have taken enough money to build two Dreadnoughts and send that money to England so that they could spend it as they pleased? And against what country? He was ready to send money to build warships to fight Germany." This effusion, according to The Globe's account, was warmly applauded by the German delegates of whom there were many.

It will be remembered that the immediate cause of the recent movement for co-operation in imperial naval defence was the challenge brought by Germany to Britain's predominance at sea. Rightly or wrongly Germany is credited with the determination sooner or later to acquire a maritime supremacy similar to that she holds now on the continent of Europe and the loom of that ambition prompted the action taken by the governments of Canada, Australia and New Zealand. Sir Wilfrid Laurier preferred, with Australia, to begin the formation of a Canadian fleet subject to the control of the Canadian parliament, but he has all along been particularly careful to assert the right of Canada to refuse co-operation in any war which might not meet with her approval. Does Mr. Mackenzie King's very distinct intimation to the German delegates throw any light on Sir Wilfrid Laurier's reiterated reservation?

At the present moment there is no country in the world except Germany with which the mother country is likely to engage in serious naval war. Should Germany ever attempt to achieve supremacy at sea it could have but one object—the disruption of the empire and the gratification of her hunger for colonial possessions that are fitted for German settlement. In the event of such a war, involving as it would the whole future of the empire and of British civilization, what is Canada going to do? Looking to this remarkable utterance of a responsible cabinet minister, Canadians loyal to the empire have a right to know whether its implication that Canadian money or Canadian ships should not be used to fight Germany had or has the sanction of the prime minister of the Dominion and his colleagues. Mr. King, no doubt, was endeavoring to make some political capital for himself and his party out of the German sentiment in his constituency, but having condescended to this weakness the matter ought not to be allowed to rest. The minister of labor should be forced to give a straight answer to the question whether in a war with Germany, menacing the safety and continuance of the British empire, he does or does not support Canadian co-operation with the mother country and the imperial states.—Toronto World.

**Samuel Nesbitt's Challenge**

"I'll pay the expenses of any three men, Liberals or any other, who may be chosen by the fruit growers of this county, to come with me through the State of New York and examine the extent of apple growing for themselves and the prices at which it can be done. And I, furthermore, assert that I can prove to those having a [illegible]

able, level-headed [illegible] travelling [illegible] county [illegible] position [illegible]

**Choice Residence Buys**

**Beacon Hill Park**

Beautiful house; attractive grounds; fronting on the park; a corner. A minute from the cars. Beautiful view. An artistic house. It would take a dozen years to reproduce the flowers and shrubs in the garden. Here is a homey house and a delightful garden, and from a sordid commercial standpoint a fine investment. The frontage is worth $5,000. The house could not be built today for $3,500. The improvements are worth over $1,000. The whole can be purchased for $[illegible] and the land value will double in a year.

**Olympia Avenue**

46x120, with western outlook, with right of way over ten-foot private lane. A most attractive site. There are only a few of these good things in the way of residence property to be had. They will double in value in the near future. Price, $[illegible] on terms.

**Dallas Road**

66x246, fronting on the best part of Dallas Road, with 10-foot right of way alongside. Price, $[illegible], on easy terms.

55x132, corner of Dallas Road and south Turner. This is a fine location for a handsome residence. Price $[illegible] on easy terms.

Large lot corner Dallas Road and Linden ave. Price, $[illegible] on terms for a quick sale.

**Fairfield Estate**

Two lots on Cook Street, near Collinson, 60x120, for $[illegible] each. Terms one-third cash and one and two years.

120x166, corner Fairfield Road and Harbinger, for $[illegible], or will divide into three lots and sell one or three on easy terms.

Ask about [illegible]

[illegible]

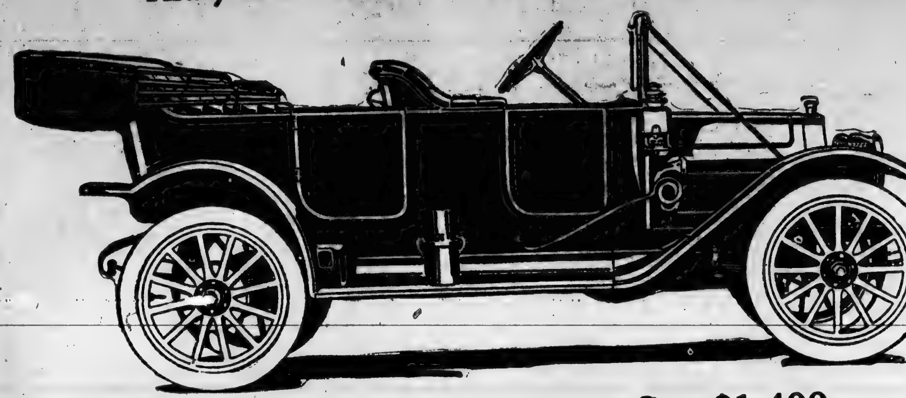
*We feel that an explanation is due for the lateness of this announcement. It is some weeks overdue and it is pretty generally known that we have already delivered some of the 1912 models.*

*Here are the facts: Some weeks ago we advised our dealers that we were going to put out the largest automobile advertisement ever printed. We naturally expected an enthusiastic response in the next mail. Instead came scores of telegrams in this vein: "For goodness sake, don't you fellows at the factory ever consider the poor dealer and his troubles? You know we can't get enough 20's or 30's to supply our trade; there are three customers waiting for every car that comes from the factory. Why aggravate the present situation by publishing another ad at this time?"*

*So we have violated all rules, and proceeded to deliver the 1912 models without first announcing them. And now we publish only one page instead of two—just enough to advise you of the fact and yet keep our dealers in good humor.*

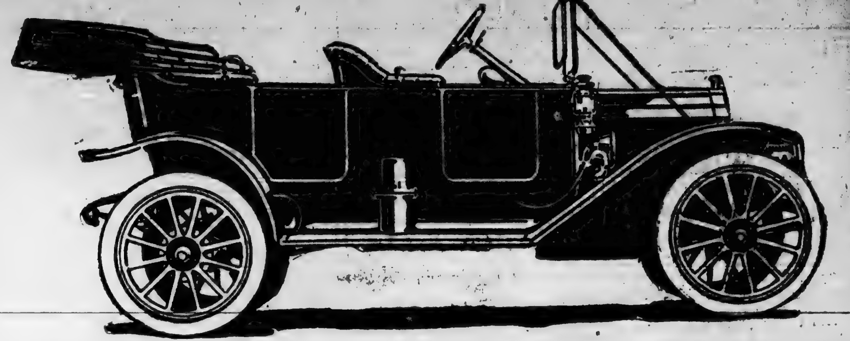
# More Value For Less Money

## That, in a sentence, epitomizes our 1912 announcement of E-M-F "30" and Flanders "20" cars



**E-M-F "30" Fore-Door Touring Car, $1,400**

Mohair Top, Brass-Bound Windshield and Speedometer, $110 extra



**Flanders "20" Fore-Door Touring Car, $1,000**

Mohair Top, Brass-Bound Windshield and Speedometer, $110 extra

**OWING TO INCREASED FACTORY FACILITIES**—which will enable our plants to build 50,000 automobiles in 1912—20,000 E-M-F "30's" and 30,000 Flanders "20's"—we are able to announce that not only we hope to more nearly meet the tremendous demand for this sterling product, but also, that, because of the increased output and the economies we are able to effect in manufacture, we can give the buyer the coming season actually better value than formerly and at $50 less price in case of both E-M-F "30" and Flanders "20."

**"THE WORLD DO MOVE,"** said Galileo with his last gasp—and that is our only excuse for announcing any changes—note we do not say improvements—in either of our models for 1912.

**JUST AT THIS TIME** when other makers are tearing the air with declamations of their new and radically different models—condemning their product of the past by just so much as they proclaim the superiority of their forthcoming effort, we can say, "Our 1912 model is just as good as we sold in 1911—or 1910, 1909 or 1908.

**CAN YOU APPRECIATE** with what pride we make that statement—can you enjoy with us the exultation which comes from knowing that if in the future we can only give every buyer as great value for his dollar—as much satisfaction and pleasure in his purchase as in the past—we will have achieved the highest ambition of an honest business house.

**TAKE FOR EXAMPLE** our E.M.F. "30" model. Never was there such a record of service and of satisfaction as the car has given its 30,000 owners. So flawless has been that record, we have today 30,000 salesmen—all working for love.

**DO YOU KNOW THAT E.M.F. "30"** is the oldest car in the world in its present form—this is its fourth year—and the few changes that have been made from time to time were in external appearances only—we have kept up with the styles in body design.

**NO OTHER POWER PLANT** has ever been able to equal this in performance—"Old Bullet," the ninth car we built, holds several world's records for speed—84 miles an hour on Atlantic Speedway, and she and the others of that famous first litter hold all world's records for endurance. Every one of them is in service today and many of the first five hundred have over 100,000 miles of rough roads toured to their credit.

**THAT IS WHY WE HESITATE** to claim any real improvement in our 1912 model—persons who know will doubt our ability to improve on perfection—or what they consider the nearest approach to perfection that has ever been attained in a motor car.

**BUT WE HAVE MADE A FEW** minor changes that may rightfully be called improvements. Here are some you will agree are better: Longer wheel base—now 112 inches—permitting of lengthened body, giving more room in front as well as rear seat. Body is also several inches wider, making ample room for three 200-pounders in rear seat; drop frame instead of former straight frame, gives lower centre of gravity and lower, more rakish appearance to car. Springs are longer also—both front and rear—always the easiest riding car, it is still more velvety in motion.

**A FEW MECHANICAL CHANGES**—not necessarily improvements, though of course our engineers think they are—are improved steering gear—better facilities for oiling and adjusting. At the same time we have emulated the $5,000 cars by placing spark and throttle levers on top of steering wheel; large steering wheel of Circassian Walnut, gives classy appearance and makes "thumb and finger control" possible.

**NO CHANGE IN MOTOR**—You will be pleased to hear that. Fact is, we would not dare to make the slightest change in that wonderful motor for fear we could never again get quite as powerful a one.

**NEITHER HAS THERE BEEN** any change in transmission, control, axle or chassis detail, save only those mentioned—the drop frame and longer springs.

**E.M.F. "30" IS MORE BEAUTIFUL** though, than ever before. Truth to tell, we have always thought there was room for improvement in the outward appearance of this car. But you must remember that in order to give our customers the highest degree of mechanical excellence, in past years we had to design the body severely plain. And we are proud of that policy—others makers adopted the opposite policy, made cars that mislead buyers by their looks—and are now either in the junk heap or on the way there—expected soon.

**BUT NOW IT IS DIFFERENT**—We have our mammoth plants and they are paid for. We have a more perfect organization. Practically unlimited capital enables us to buy better—and prices of all materials are lower.

**SO NOW WE CAN ADD** appearance to efficiency—luxurious appointments to mechanical perfection—and sell you that much better car in 1912 for a lower price than you paid in 1911—and $100 less than we had to charge in 1910.

**WE HAVE PROMISED** from the first to improve wherever and whenever possible, and to "divide with the buyer the savings we effect by our superior facilities." This 1912 announcement is the fulfilment of that promise.

**FOR THE PRICE HAS BEEN LOWERED**—The big, luxurious, fore-door model will now be $1,400 f.o.b. factory. Let those try who may, none can equal this value. They never have been able to, and it is no part of our plan that they ever shall.

**THE BODY IS A BEAUTY**—of the most improved "straight line" type—perfectly straight from front to rear. All levers inside; door latches concealed; large ventilators in dash so it is just as cool in front as in rear. Also we provide so doors can stand ajar, so speed of car sucks our warm air, permitting cool air to replace it constantly. Actual thermometer tests show our front compartment to be cooler than rear. Only objection to fore-door design eliminated.

**IN A WORD** the E.M.F. "30" will continue to be in 1912, as it has always been, the best car in the world at less than $2,500—the first choice in its class of all well informed buyers. Others thrive on our leavings—they live because we cannot supply the full demand, even making as we do, one hundred of these cars every day.

**AND THE PRICE IS LESS**—$50 less. Price of 1911 model (fore-door touring car) was $1,450. For 1912 it is $1,400 flat—this is in pursuance of the policy we have enunciated from time to time ever since we started in business, that "we will divide with the buyer the savings we are able to effect by our superior facilities for manufacturing and distributing our product to the buyer." It is not a cut—nor is it necessary. All the world knows it has been almost impossible to get E.M.F. "30" or Flanders "20" cars during the past few months, despite the fact we are the largest manufacturers in the world. No, this reduction in price is simply another evidence that we keep our promises—as we progress and improve facilities for making a better car for less, we divide with the buyer.

**MADE IN FOUR MODELS** for 1912. Fore-door, Five-passenger Touring Car, $1,400; Fore-door Detachable Demi-tonneau, $1,400; Fore-door Roadster, $1,400; Coupe, $1,800. Full detailed specifications in handsome catalogue.

**OF THE THREE-SPEED FLANDERS "20"** we need only say the 1912 model is identical with that of 1911—just as good in every particular. No better—for we don't know how to make a better car than our 1911 Flanders model proved. From the day we turned out the first three-speed Flanders "20" model this car has been the sensation of the motoring world in the light car class.

**YOU WILL REMEMBER** that the two-speed Flanders model did not come up to her designer's expectations. Ninety-five per cent. of those who got them are perfectly satisfied—but we were not. We said so frankly a year ago when we announced the three-speed model, greatly improved throughout.

**WE USE STRONG STATEMENTS** in our ads—we have the goods and ordinary terms cannot do justice to them. So do others deal in superlatives when they are proclaiming hoped-for virtues. Past errors they are singularly silent about, however.

**WE HAD TO ADMIT** that the two-speed idea was wrong for a touring car. Its only advantage was cheapness of manufacture, and, while we had the customer's interest at heart when we designed the two-speed Flanders "20," we found we were mistaken and that the customer—experienced buyers anyway—would gladly pay a trifle more to have the added efficiency and superior control of a three-speed selective sliding-gear transmission.

**WHILE WE WERE ABOUT IT** we designed the handsomest fore-door touring body that ever was seen on a moderate-priced car.

**AND WHAT A RECORD** she has made—it is simply splendid. Discredited by her past, dealers and individual buyers alike were supercritical. Competitors "knocked" for fair and tried to convince buyers that the three-speed model was really no great improvement over the former two-speed. We sometimes think this very knocking was our greatest advertisement, for, of course, the public knew that the man whose name this car bore would stand back of the product—it had been his pride from the first.

**SO THEY DETERMINED TO TRY** the new car out. And they certainly did figure out some gruelling tests—speed, hill-climbing, mud plugging, sand fighting—every imaginable stunt that could break down a car or prove her ability. And Flanders "20" always came up smiling. The astonishment of her opponents was something to see. From that time she has forged steadily ahead, sweeping from her path every would-be rival, till today she is acknowledged leader. Dealers tell us there would be no other light touring car sold if they could get enough three-speed Flanders to fill the demand.

**WE HAD IN MIND** in designing this car, the great class of well-to-do business men who want a family touring car of high efficiency, seating five and capable of taking them anywhere—people who want a car of sterling quality and yet feel they cannot afford a car as large as E-M-F. "30."

**NOW WE COULD HAVE DONE** as we did with E.M.F. "30" five years ago—designed with an eye single to mechanical excellence and without regard to appearance. But that day has passed. The opinions of other makers to the contrary notwithstanding, we believe the farmer and the man in the village has just as artistic a sense—is just as well informed on up-to-date design as the city man. And we determined to make a handsome car as well as a good one.

**THAT COSTS MORE, OF COURSE**—there is actually over $250 more factory cost in Flanders "20" than in any of its competitors—yet there is not nearly that difference in the selling price.

**COMPARE THEM**—Ask your local dealer to drive his Flanders "20" demonstrator up beside one of the several makes of "tin-cars" so you can see the wonderful difference.

**COMPARE POINT FOR POINT**—The French-type bonnet of the Flanders with the simple, cheap-looking—and cheap—motor cover on the front of the other. The full fenders of the Flanders with the scrawny, tinny-looking mud-guards of cars that presume to compete with it. Even the equipment—lamps, top, wind-shield, are superior in looks and in quality.

**APPEARANCE IS IMPORTANT**—However matter-of-fact a man may claim to be, his wife and daughters crave the artistic and the beautiful. And Flanders "20" is their choice because there they find it to as great a degree as in the highest priced car on the market.

**YOUR MECHANICAL SENSE** will also be appeased—we are talking to you, Mr. Practical Man—if you will investigate chassis details and power plant. You will find a four-cylinder motor of most approved French type and a transmission like that in E.M.F. "30"—same excellent axle design too, and you will find, if you know steel, that the materials that go into this car are not surpassed in quality by that used in any automobile at any price—bar none.

**FLANDERS "20" HAS NO RIVAL** when you consider all points. No other car on the market gives the buyer so much mechanical excellence and so much to be proud of in appearance as the "Flanders "20"" at $1,000.

**OUR ONLY PROBLEM IS DELIVERY**—We are not going to make any rash promises. We cannot promise to deliver every car that is ordered. All we can do is to repeat that we are making one hundred per day now! That we are doubling our factory facilities as fast as bricks can be laid and machinery installed! That we will be making two hundred a day within ninety days and will work a full force all winter in hopes of catching up with the demand—but that is the limit of our ability for the present.

**SAME REDUCTION IN PRICE** of this model as E-M-F. "30"—$50 less for 1912 than for 1911 model. And same reason—increased facilities; increased output which distributed the "overhead" expense thinner over a larger number of cars and enables us to effect other economies in manufacture. Also in selling: we verily believe it costs less to transfer an E-M-F "30" or Flanders "20" from factory to user than any other motor car made. Reason is we don't have to sell them—customers come to us and buy, having found from others' owners that nowhere else can such value, such service, such satisfaction be obtained in an automobile for anywhere near the price. Costs less to sell and to make, and so, in pursuance of the policy outlined at the foot of second column of this ad. (Applies to Flanders "20" as well as to E-M-F "30") we divide with the buyer the saving we effect.

**FOUR MODELS OF THIS CAR ALSO FOR 1912**—Fore-door, Five-passenger Touring Car—slightly smaller than E-M-F "30," not quite so speedy—45 miles an hour—but just as efficient, $1,000. Four-passenger Suburban—ideal car for rural residents—$1,000. Two-passenger Roadster, $950. Two-passenger Coupe, $1,200. Full detailed specifications in catalogue.

E-M-F "30" Fore-Door, Detachable Demi Tonneau, $1,400
Mohair Top, Brass Bound Windshield and Speedometer extra $110

904 GOVERNMENT STREET

BUSINESS LOTS FOR BUSINESS MEN AT Fort George

The big money in real estate is made by those who buy business lots at the beginning of a city.

Knowing what you do now, if you had the opportunity of buying at prices prevailing a few years ago, you would not hesitate to buy on Hastings or Granville streets, Vancouver; Main street or Portage avenue, Winnipeg; Jasper avenue, Edmonton; or Eighth avenue, Calgary.

You would not be buying at Shaughnessy Heights, Tuxedo Park or any of the outlying additions no matter how high-sounding the name or how many boulevards or parks they might have, notwithstanding the fact that lots in these additions are first-class investments—but

BUSINESS LOTS FOR PROFIT

Most people cannot afford to buy business lots in the streets mentioned above at present prices.

It is possible, however, to get in at the starting point of what will be undoubtedly a place of as much importance.

In making an investment in real estate the necessary thing to do is to pick out the most promising of the prospective cities and examine into their possibilities.

What are their natural advantages?

After you have looked them all over and considered the good and bad points, then you will find out that—

Fort George has every natural advantage possessed by all the others combined.

One of the prospective cities will be a railroad centre.

Another has coal mines.

This one has timber lands.

Another will talk of the fine climate.

That one is the centre of an agricultural district.

Fort William and Fort Arthur will talk to you about their water transportation.

Stewart will talk of her mines.

Some other places may have a great waterpower.

FORT GEORGE HAS THEM ALL

Don't overlook this point. It means that Fort George has a combination of all the resources possessed by all the other cities of Western Canada (except that she is not an ocean port).

Fort George is the geographical and strategic commercial centre of British Columbia. British Columbia is Canada's largest and richest province.

You should know all about Fort George and British Columbia. Let us send you map, plans and official information free.

Send your name or call today.

You can get in at the beginning if you hurry.

NATURAL RESOURCES SECURITY CO., Ltd.

Paid-Up Capital $250,000.
Joint Owners and Sole Agents Fort George Townsite.

BOWER BUILDING, VANCOUVER, B. C.

Alberni

We have a fine dividend paying proposition (10%) in best business centre, two blocks from the wharf, and next Government office, consisting of three buildings rented for $238 per year, room to build two more stores; lot 122 feet on main street by 66 on Gertrude street (the new main thoroughfare from Port Alberni). All roads in the district meet in Alberni. The increase in values here will be great as the Canadian Northern are to locate their terminals across the Somas river, opposite this town. This is a chance for a secure investment, that will pay at once and increase in value rapidly.

# MANITOBA'S STAND AGAINST RECIPROCITY

## Visiting Editor Says Western Province Decisively Against Pact—Liberals' Conflicting Promises

"There is no doubt in my mind but that Manitoba will prove herself heartily against reciprocity when the decisive day comes later this month," said Mr. Hay Stead, associate editor of the Winnipeg Saturday Post, an independent weekly of wide influence, who is in Victoria at present with Mrs. Stead on the eve of starting for a tour of the Fort George country.

In an interview with the Colonist yesterday, Mr. Stead said that it was conceded by Winnipeggers and Manitobans generally who were men of long experience in political affairs in that province that the farmers are quite aware of the fact that the proposed reciprocity pact plans to give them just as little as possible and retain the name of reciprocity. They are also beginning to wonder how the Liberals intend to keep their two promises, to give the farmers cheaper staples on the one hand and higher prices for their produce on the other. So far, Mr. Stead says the Liberals in Manitoba have failed to successfully explain this enigma.

Referring to the situation in Winnipeg and Brandon, Mr. Stead declared there was small doubt but that Mr. Alex Haggart, who defeated Mr. Cameron by a very large majority at the election of 1908 would have even less difficulty this time in winning over Mr. James Ashdown. In Brandon Mr. J. A. M. Aikins, a strong, popular candidate would, Mr. Stead felt, poll a long lead over the Liberal candidate Mr. A. E. Hill.

# RALLY OF WARD FIVE ELECTORS

(Continued from Page 3)

Shut down our mills and starve our artizans, and will also

Impoverish our farm lands and imperil our home market.

Mr. H. F. W. Behnsen stated that it was a great pleasure to be with the people of ward five and to say a word in behalf of the fight against reciprocity and in favor of Mr. G. H. Barnard. He deprecated the pact because, in his opinion, there was no doubt that it would have a tendency to separate the daughter land from the mother country. He did not think that Canadians should endorse such a proposal, that they should remain with the land which had furnished million of dollars in its development which had had more to do with building it up to its present proud position than anything else. There were many who remembered the struggle the merchants had from year to year to make both ends meet and how the workingmen but scraped along. Since then conditions had changed. Victoria was enjoying unexampled prosperity. He claimed that the voters of Victoria would be foolish if they tampered with something which might plunge them back to the black days of the past, something which would jeopardise the future. (Applause.)

The meeting closed with the national anthem and cheers for Mr. R. L. Borden and Mr. G. H. Barnard.

# BIG LEAGUES PAY HIGH FOR PLAYERS

CINCINNATI, Sept. 1.—One hundred and ten minor league baseball players will become members of the major league clubs next season as the result of the drafting process before the National baseball commission today. Of this number sixty-three will enter the National league, and forty-seven the American.

The Brooklyn team of the National league and the Detroit and Cleveland clubs of the American league appear to have been the luckiest in the draw.

Brooklyn got sixteen players and eleven will go to Cleveland. While Detroit got only nine, yet no fewer than four of these were wanted by several other teams.

Players Cravath of Minneapolis, Vitt of San Francisco and Dubuc of Montreal were the best likely players.

Detroit got both Vitt and Dubuc, while Pittsburg obtained Cravath, providing a claim submitted by the Philadelphia Nationals that it had purchased Cravath be not allowed. Secretary Bruce, previous to the meeting, stated that he had received cheques from the American league for the drafted players, amounting to $73,750, and from the National league $108,400.

FUNERAL NOTICE

Members of Victoria Aerie, No. 12, F. O. E., please take notice that the funeral of our late Bro. J. O. Connors, will take place from Eagles' Hall, Government street, Sunday, Sept. 3rd, at 2 p.m. Visiting Eagles are requested to attend.

T. F. GOLD, W. President.
Attest,

# AVIATOR KILLED

### Forced by Unreasonable Crowd to Attempt Flight With Partially Disabled Aeroplane

NORTON, Kas., Sept. 1.—J. F. Frisbie, the Curtis aviator, was killed by a fall at the Norton county fair this afternoon. Frisbie met with an accident yesterday, and only went into the air again when driven to do so by the taunts and jeers of the crowd.

Frisbie fell 100 feet, and the engine of his machine fell on him, crushing his left side and chest. He died an hour later. Frisbie had been giving exhibitions at Elmwood park for several days. Yesterday his machine acted badly, and he fell forty feet, but beyond bruises, was not injured.

He was skeptical about the ability of his machine to stand another flight and announced that he would not take the air this afternoon. When this was made known to the crowd, there was an angry demonstration. The crowd hooted "faker," and refused to listen to explanations.

Finally Frisbie announced that rather than have the big crowd go away with the impression that he was not willing to do his best, he made an attempt to fly, and attained a height of 100 feet, but in attempting to make a turn the planes dipped and he lost control. As he came crashing to earth, the spectators could see the aviator trying to right the machine, but as it approached the ground one of the wings crashed into a barn, and the machine glanced off and struck the earth with Frisbie underneath. Physicians who hurried to the aviator's assistance expressed the opinion at once that his injuries were fatal.

Frisbie's wife, son and little girl were witnesses of the accident. Mrs. Frisbie was prostrated when she saw her husband fall. Tonight she bitterly denounced the action of the spectators in forcing her husband to make the flight with a disabled machine.

Frisbie was well known among the aviators, having flown at Belmont park and been a participant in the recent big meet at Chicago.

# RESTORATION OF KASLO AND SLOCAN

## Plans Outlined Some Months Ago to be Followed and Road to be Placed in Operation Soon

That the restoration and operation of the Kaslo & Slocan railway will be proceeded with by the Kaslo syndicate in accordance with the plan outlined and decided upon some months ago, despite the arrangement made by the C. P. R. for building between Three Forks and the Lucky Jim mine, is announced by those interested in the resumption which means so much to Kaslo and the mining area traversed by the short line in question. Mayor Archer, of Kaslo, called recently upon Premier McBride, the question of the restoration of the K. & S. coming up for consideration. Mayor Archer inquired of the first minister as to whether the government was still prepared to extend the measure of assistance promised, and was assured affirmatively. He then stated that the prosecution of the work of restoring the line would be taken in hand at once.

Having accepted the offer of $25,000 for the abandoned road, the Great Northern has ceased to be an interested party in the matter, and Kaslo & Slocan affairs had no part in the conference which Vice-President Gilman had on Thursday with Premier McBride. Various matters of mutual interest in which the company and the British Columbia public are jointly concerned, were discussed, the situation of the Victoria & Sidney road in particular obtaining consideration.

# MAY REDUCE NEW PAVING PROGRAMME

## Tenders Called for More than Council Thinks Can be Conveniently Done—Mayor Criticizes Engineering System

Council decorum appears to be conspicuous by its absence whenever paving contracts come up for consideration and last night's session of the city council, at which the tenders for the additional 150,000 square yards of paving for streets already passed by the board came to be considered, was no exception. The contract would have called for an expenditure of nearly $300,000, but after a heated session, during which paving matters were more or less forgotten and the mayor resuscitated the old question of the alleged inefficient management of the city engineer's department and the excessive cost of the inspection on city works, the tenders, while opened, were referred to a committee to decide what streets are absolutely in need of paving, this committee to report back. The tender of the Canadian Mineral Rubber company was the lowest.

Later in the evening another exhibition of heat was given when Aldermen Humber and Okell called his worship to order, claiming that he [illegible] part of the council business and wasted the time which might better be devoted to transacting the city business. [illegible]

IF YOU GET IT AT PLIMLEY'S—IT'S ALL RIGHT

be better to leave the tenders over. The advertisement called for about 75,000 yards, but he understood about twice that amount was being tendered on.

Alderman Gleason explained that at first it was thought 75,000 yards would be sufficient, but there are many streets urgently requiring paving, in all amounting to about 153,000 yards. The tenders would cover this larger work, but the question was whether the city should follow the policy of letting this work by contract or doing it itself. He doubted if the city could carry through such extensive work in time and even if let to the holder of the present contract, the Canadian Mineral Rubber company, the company would have so much work on hand that it would not be able to carry it out.

Alderman Bishop urged letting the contract at once as the ratepayers in many sections of the city have been waiting for years for adequate street improvements, while Alderman Humber believed it better to complete the work on hand now and catch up with arrears. At present streets are blocked and the preliminary underground work cannot be done because of lack of materials. Alderman Langley also favored Alderman Humber's recommendation.

**Should Let Portion of Work.**

Alderman H. M. Fullerton urged the letting of contracts for at least some streets. He believed in the future of the city and if the ratepayers had not wanted the street work done they would not have authorized it. Probably 30,000 or 40,000 yards could be laid in the Foul Bay district.

Mayor Morley in urging that to let more paving work would carry the programme into the rainy season, said there was one point he wished to bring up. Perhaps the council members did not realise the fact that it is costing the city about $7,000 per month for the inspection of public works and some of it is not worth the expenditure of seven cents. Some of the inspectors are useless. In fact, the annual cost of this inspection plus the profit the paving company is making would make it well worth the city's while to establish a proper asphalt plant here. It was, the mayor declared a "peculiar deal."

Alderman H. M. Fullerton promptly called upon his worship to explain his insinuation, but the mayor claimed he had already done so.

"If things are going wrong, why do you not, as executive head, see them righted," asked Alderman Fullerton.

Mayor Morley declared that last year's council by passing a bylaw making the city engineer supreme, had taken it out of his hands to furnish a remedy. He had received many complaints but it was not his place to take matters up with the engineer.

Alderman Fullerton believed it would have been only a matter of courtesy on the part of the mayor to refer these complaints to the engineer, but the mayor thought not and he cited the case of the appointment of Mr. Case to the supervision of the construction of the cemetery seawall. A Mr. Winkle had been appointed inspector, but Mr. Case would not permit Mr. Winkle to perform that work. In other departments the mayor was always kept advised of what is going on. He could not understand how it was that Mr. Case, a partner of a firm carrying out the work on the Dallas road foreshore wall, should be working for the city on another work. He had nothing against Mr. Case, but the situation called for an explanation.

**Overdrawing Matters**

City Engineer Smith at this stage expressed the belief that the mayor was not quite stating facts, that his worship was overdrawing matters. The mayor knew the men engaged in the city engineer's department, in fact he (the engineer) had taken the mayor into his confidence in regard to the appointment of the staff.

Mayor Morley denied this but the engineer stuck to his statement. In regard to Mr. Case's appointment he had received his written instructions and if he had refused to recognize Mr. Winkle as inspector he had exceeded his instructions. But the Winkle complaint had not, until that moment, been brought to his (the engineer's) attention.

"Now it is all coming out," remarked Alderman Humber.

Alderman Langley recalled that last year no member of the council was more anxious that the engineer should be absolutely free from council interference than the mayor, and the bylaw was so framed. Why the official should have to consult the mayor was something Alderman Langley could not understand. If he fails in his work a new engineer could be secured.

Alderman Humber declared that as a result in the change in the system whereby the streets committee this year was composed of Aldermen [illegible] and the mayor, they, with the city engineer and city solicitor, have [illegible]

Alderman H. M. Fullerton [illegible] declared that the present is the best council in the history of the city and he would certainly support Mayor Morley at the next election.

"What has made you change so. That certainly is a good one," laughed Alderman Humber.

**Mayor's Alternative**

The discussion was terminated by the mayor declaring that either of two things must happen, the council and himself shall have a say in regard to the conduct of public works or a new city engineer will be secured.

The bids received for paving were from the following firms:

John Haggerty & Co: $1.47 per square yard; excavation of earth, eighty-seven and a half cents; rock $2.40; curb and gutter, fifty-eight cents.

Warskick Paving Co.: $1.35 per yard; earth excavation, sixty cents; rock, $2.50; curb and gutter, fifty-two cents; gutter, twenty-eight cents.

T. R. Nixon & Co.: $1.69 to $1.73; earth excavation, eighty-five to ninety-five cents; rock, $2.50; curb and gutter, seventy cents; gutter, thirty cents.

R. G. Stevenson, $1.55; earth excavation, seventy cents; rock, $2.50; curb and gutter, fifty-three cents; gutters, twenty-three cents.

City Engineer: $1.50; earth excavation eighty cents; rock, $2.50; curb and gutter, fifty-five cents; gutters, twenty-eight cents.

Canadian Mineral Rubber Co.: $1.38 to $1.43; earth excavation, seventy-five cents; rock, $2.50; curb and gutters, fifty-four cents; gutters, thirty-six cents.

Later in the evening when the question of the publication of copies of the assessment roll for sale to outsiders was mooted the mayor suggested that a tender recently received should be accepted while others of the council suggested the adoption of a bid of the Victoria Typewriting company. Then it was proposed that Mr. William Scowcroft, of the city assessor's staff, who has hitherto done this work and made some money by it, be permitted to still supply the books required by local real estate firms and others.

The argument was a lengthy one the mayor repeatedly urging that no city employee should be allowed to devote his spare time to such work. To do so meant that the employee would not be in a position to give a good day's work to the city. This attitude was actively combatted by several of the council but the mayor stuck to his opinion and frequently [illegible] the order of the [illegible].

Finally Alderman [illegible]

A Home Among The Oaks

A new subdivision has just been placed on the market among the Oak Groves near the Sea at Oak Bay. The lots are large and very attractive. There are only a few and they will not remain unsold very long. Call and see us about them

Grogan & Crook

## NOTICE TO CREDITORS

In the matter of the Estate of John Chapman Davie, deceased, and in the matter of the "Trustees and Executors Act."

TO WHOM IT MAY CONCERN:—

Take notice that all persons having claims against the late Dr. J. C. Davie, who died on the 10th day of August, 1911, in the Municipality of Oak Bay, in the Province of British Columbia, are required to send by registered post prepaid, or to deliver, to the undersigned, Solicitor for R. T. Elliott and F. B. Pemberton, the Executors of the above mentioned estate, full particulars in writing of their claims and statements of their accounts, and the nature thereof, and the securities (if any) held by them, duly verified by statutory declaration.

AND FUTHER TAKE NOTICE that after the 1st day of October, 1911, the said Executors will proceed to distribute the assets of the deceased among the persons entitled thereto, having regard only to the claims of which the said Executors shall then have had notice.

Dated this 30th day of August, 1911.

C. F. DAVIE.

Of Room 203, Pemberton Building, Fort Street, Victoria, B. C., Solicitor for R. T. Elliott and F. B. Pemberton, the Executors of the above mentioned estate.

## NOTICE

PUBLIC NOTICE is hereby given that, under the authority contained in section 131 of the Land Act, a regulation was approved by the Lieutenant-Governor in Council fixing the minimum sale prices of first and second class lands at $10 and $5 per acre respectively.

This regulation further provided that the prices fixed therein should apply to all lands with respect to which the application to purchase were given favorable consideration after the date of said regulation, namely, April 3, 1911.

Further notice is now given that by virtue of a regulation approved by the Lieutenant-Governor-in-Council on the 10th of May, 1911, that the regulation dated the 3rd April, 1911, be held not to apply to applications to purchase vacant Crown lands which were received by the Assistant Commissioners of Lands on or before the said April 3rd, 1911, and with respect to which the required deposit of fifty cents per acre had been received by said Commissioners on or before the said April 3rd, 1911.

ROBT. A. RENWICK,
Deputy Minister of Lands.

Department of Lands,
Victoria, B. C., 16th of May, 1911.

### CANCELLATION OF RESERVE

NOTICE is hereby given that the reserve existing over certain lands in Range 5, Coast District, notice of which bearing date of July 13, 1908, and December 17, 1908, were published in the British Columbia Gazette in the issues of July 16, 1908, and December 17, 1908, respectively, is cancelled in so far as the same relates to lands surveyed as the east half and northwest quarter, section 8, west half of section 9 and northeast quarter section 9; section 14, north half and southeast quarter, section 15, north half and southwest quarter, section 16, section 17, fractional north half section 18, sections 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35 and 36, all in Township 18, range 5 Coast District.

ROBERT A. RENWICK,
Deputy Minister of Lands.

Department of Lands, Victoria,
June 16, 1911.

### CANCELLATION OF RESERVE

NOTICE is hereby given that the reserve existing over certain lands situated in Range 5, Coast District, notice of which bearing date of December 17, 1908, was published in the British Columbia Gazette in the issue of December 17, 1908, is cancelled in so far as the same relates to lands surveyed as the north half and southwest quarter section 9, north half section 10, north half and southeast quarter section 11; sections 12, 13, 14, 15, 16, 17, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29 and 30, all in Township 19, Range 5, Coast District.

ROBERT A. RENWICK,
Deputy Minister of Lands.

Department of Lands, Victoria,
June 16, 1911.

## NOTICE TO CONTRACTORS

### Alterations and Repairs—Upper and Lower Extension Schools

Sealed tenders, superscribed "Tender for Alterations and Repairs to Upper and Lower Extension Schools," will be received by the Honorable the Minister of Public Works up to 12 o'clock noon of Wednesday, the 13th day of September, 1911, for the erection and completion of the several works required in alterations and repairs to the Upper and Lower Extension Schools, in the Newcastle Electoral District.

Plans, specifications, contract, and forms of tender may be seen on and after the 29th day of August, 1911, at the offices of the Government Agent, Nanaimo, B. C.; Alexander Michie, Esq., Secretary of School Board, Extension, B. C.; and the Department of Public Works, Parliament Buildings, Victoria.

Each tender must be accompanied by an accepted bank check or certificate of deposit on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for the sum of $150 which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The checks or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Public Works Engineer.

Department of Public Works,
Victoria, B. C., Aug. 25, 1911.

## NOTICE

### "NAVIGABLE WATERS PROTECTION ACT"

Notice is hereby given that the Cameron Lumber Company, Limited, having its registered office in the City of Victoria, British Columbia, is applying to His Excellency the Governor General of Canada-in-Council for approval of the area plans, site and description of works proposed to be constructed in that part of the waters of Victoria Harbor known as Selkirk Water, [illegible] site, lying and being in the City of Victoria, British Columbia, and known and described as Lot D and E Garbally Estate and has deposited the area and site plans of the proposed works and a description thereof with the Minister of Public Works at Ottawa, and a duplicate thereof with the Registrar General of Titles in the Land Registry Office in the City of Victoria, British Columbia, and that the matter of said application will be proceeded with at the expiration of one month from the time of the first publication of this Notice in the Canada Gazette.

CAMERON LUMBER COMPANY,
LIMITED,
Per D. O. Cameron, Secy.

Dated this fifth day of August, One thousand nine hundred and eleven.

# WANTED

Man or firm to represent our company in Victoria and vicinity, upon a very liberal commission basis. We are the exclusive authorized selling agent of the

GRAND TRUNK PACIFIC

Railway for lots in the original townsite of RIVERS, a Divisional Point on the main line of the G. T. P. Ry. We are the owner of the original townsite of

# NOKOMIS

"The Junction City"

Located on the main line of the G. T. P. and on an important branch line of the C. P. R. The C. N. R. is to extend its line through Nokomis and it is generally believed that the C. N. R. will establish Nokomis as a divisional point.

To the right man or firm, our proposition is good for from $50 to $300 weekly in commissions. Don't say that this is impossible. We have almost three hundred representatives in various parts of Canada, who are demonstrating that these figures as to the amount it is possible to earn, are conservative.

Only those who are in position to devote some time to the sale of these lots need apply. Complete information as to our plan and offer upon request.

## Grand Pacific Land Co.

243 Somerset Bldg., Winnipeg, Man.
LIMITED

We want a representative in every town in Canada to sell Nokomis and Rivers lots and lots in other growing Western Canada towns.

# ACTIVE DEMAND RAISES PRICES

### New Level Attained on Yesterday's Stock Market—Rumor Concerning Railway Connection in States

NEW YORK, Sept. 1.—The demand for stocks today was sufficient to advance the level of prices quite generally, and many of the active issues rose from 1 to 2 points. Trading was on a much smaller basis than on any other day since the turmoil brought about the heavy liquidation which began early in August.

Buying reflected chiefly scattered covering of shorts, due largely to the fact that a triple holiday was at hand.

Minneapolis and St. Louis added three points to its recent advance. In connection with this movement a report which lacked official confirmation was circulated that a project was on foot to link the Hawley system with a Canadian road, thus forming a new through route from Canada to the Gulf of Mexico and the southeastern seaboard. Chesapeake and Ohio was another strong point in the railroad list.

Trading in Standard Oil was brought to a halt on the curb today by the closing yesterday of the transfer books of the corporation [illegible] dissolution proceedings. It was impossible to form an intelligent idea as to the worth of Standard Oil of New Jersey stock divested of its subsidiaries. For the stock, "ex-subsidiaries," 350 was bid and offered at 450. Traders could reach no common basis, however, and no business was transacted in the shares. Movements of currency for the week included $1,450,000 for San Francisco.

Bonds were firm. The total sales (par value) $1,301,000. United States bonds were unchanged on call.

## Covered With Eczema

CURED BY TWO BOTTLES D.D.D.

On March 21st, 1910, Mr. Angus McMillan, of Port Hood, N. S., wrote us: "My little boy three years old was covered from head to foot with eczema. I tried over twenty different kinds of salves and washes but could not see any improvement—in fact it seemed to be getting worse.

I was about discouraged and had lost faith in all kinds of so-called eczema cures, when I saw an ad. telling about D.D.D. Prescription. I sent for sample bottle and the third application convinced me that I had at last got a sure cure. Two bottles effected a complete cure."

What D. D. D. did for this little boy, it will do for any skin sufferer. A mild, soothing liquid made up of oil of Wintergreen, Thymol, Glycerine and other ingredients, it penetrates to the root of the trouble and washes the disease germs out.

Why not get relief? Simply write today to the D. D. D. Laboratories, Dept. V.C. 49 Colborne St., Toronto, and they will send you a free trial bottle.

C. H. Bowes & Co.

### Premier or Nothing.

Sir Wilfrid Laurier made the remarkable announcement yesterday that if his administration should be defeated in this election he would retire at once and forever from public life. He declines in advance to lead the opposition or to sit with that party. On two or three occasions Sir Wilfrid has said that public life has no charms for him, but this statement seems to apply only to public life without office.

Sir Wilfrid is not yet seventy years old, and has lately explained that he has better health than when he was young. At seventy-six Sir John Macdonald made his last campaign, not then suggesting that he would retire if he were defeated, but declaring that he would fight veiled treason with his last breath. At seventy-two he had led the campaign of 1887. Sir Charles Tupper became leader of the opposition at seventy-five, and gave up that position at seventy-nine, when he was no longer a member of parliament. At least two members of Sir Wilfrid's cabinet are older and several are more infirm than he. But it is neither age nor infirmity which makes Sir Wilfrid think of retiring, else he would not retain the premiership if he should win. Yesterday's declaration is evidently an announcement that the premier will be either Caesar or nobody.

But why should this conditional valedictory be thus delivered in advance to the meeting at St. Jerome? Is it necessary to issue an ultimatum or announcement of [illegible] which Sir Wilfrid will consent to remain in public life? For some purpose the people are told that if they will not retain him as premier they cannot have him at all. If the people of Quebec desire to see this distinguished and honored man in parliament or in public life they must retain him in his present position.

Is not this a little undignified and unworthy of a man whom the Canadian people have kept for fifteen years in the highest office they have to bestow? Much allowance may be made for a politician who has held office through a combination based on race, creed and sectional spirit, and who finds that the organization is going to pieces. But forty years of public life, twenty-five years of leadership, and fifteen years of office might have been expected to train the Liberal leader to face possible defeat without advance notice that he would give up the game if he lost office.—Vancouver News-Advertiser.

# CITY OF VICTORIA

A Complete List of Local Improvement Works, Authorised by By-Law, from Time to Time, Will Be Found Posted on the Bulletin Board at the Main Entrance to City Hall

### NOTICE.

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable:

1. To grade, drain and pave with a heavy standard asphalt pavement, Rock Bay avenue from Bay street to Orchard street, and construct curbs and gutters on both sides of said avenue, and lay all lateral connections to sewers, surface drains and water mains, and remove poles if necessary, and construct sidewalks on both sides of said avenue with boulevards (including maintenance.)

2. To widen Douglas street from Pembroke street northerly to the city limits to a uniform width of 100 feet, and to expropriate the necessary property therefor.

3. To grade, drain and pave with bituminous macadam Lydia and Howard streets between Pembroke street and Edmonton road, and construct permanent sidewalks of concrete on both sides of said streets, with curbs and gutter, also lateral connections to sewers, surface drains and water mains, and remove poles if necessary.

4. To grade, drain and pave with an asphaltic pavement Pandora avenue from Stanley avenue to Belmont avenue, and construct permanent sidewalks of concrete on both sides of said avenue, with curbs, gutters and boulevards, also lateral connections to sewers, surface drains and water mains, and remove poles, if necessary.

5. To grade, drain and pave with an asphaltic pavement St. Charles street from Rockland avenue to Fairfield road, and construct permanent sidewalks of concrete, with curbs, gutters and boulevards, on both sides of said street, also lateral connections to sewers, surface drains, and water mains, and remove poles, if necessary.

6. To grade, drain and pave with an asphaltic pavement Battery street, easterly to Beacon Hill park and construct a permanent sidewalk on the south side of said street, and curbs, gutters and boulevards on both sides of said street, also lateral connections to sewers, surface drains and water mains, and remove poles, if necessary.

7. To grade, drain and pave with an asphaltic pavement Rendall street from Simcoe street to Niagara street, and construct curbs and gutters on both sides of said street, and a permanent sidewalk on the west side, also lateral connections to sewers, surface drains and water mains.

And that all of said works shall be carried out in accordance with the provisions of the Local Improvement General By-Law, and amendments thereto, and the City Engineer and City Assessor having reported to the Council, in accordance with the provisions of Section 4 of this by-law, upon each and every of said works of local improvement, giving statements showing the amounts estimated to be chargeable in each case against the various portions of real property to be benefited by the said work, and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the Council.

NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the City Assessor, City Hall, Douglas street, and that unless a petition against any proposed work of local improvement above mentioned, signed by a majority of the owners of the land or real property to be assessed for such improvement, and representing at least one-half of the value of the said land or real property, is presented to the Council within fifteen days from the date of the first publication of this notice, the Council will proceed with the proposed improvement upon such terms and conditions as to the payment of the cost of such improvement as the Council may by bylaw in that behalf regulate and determine.

WELLINGTON J. DOWLER,
C. M. C.

City Clerk's Office, Aug. 19th, 1911.

### NOTICE.

That the Municipal Council of the Corporation of the City of Victoria hereby determines that it is desirable to widen Hillside avenue, from Douglas street to Cedar Hill road to a uniform width of 75 feet throughout, and to expropriate strips of land 7 1-2 feet wide from off both sides of said avenue for this purpose.

And that all of said works shall be carried out in accordance with the provisions of the Local Improvement General By-Law, and amendments thereto, and the City Engineer and City Assessor having reported to the Council, in accordance with the provisions of Section 4 of this by-law, upon each and every of said works of local improvement, giving statements showing the amounts estimated to be chargeable in each case against the various portions of real property to be benefited by the said works, and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the Council.

NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the City Assessor, City Hall, Douglas street, and that unless a petition against any proposed work of local improvement above mentioned, signed by a majority of the owners of the land or real property to be assessed for such improvement, and representing at least one-half of the value of the said land or real property, is presented to the Council within fifteen days from the date of the first publication of this notice, the Council will proceed with the proposed improvement upon such terms and conditions as to the payment of the cost of such improvement as the Council may by bylaw in that behalf regulate and determine.

WELLINGTON J. DOWLER,
C. M. C.

City Clerk's Office, Aug. 23rd, 1911.

## TENDERS FOR LINE WIRE

Tenders will be received by the undersigned up to 4 p. m., Friday, Sept 8, for 10,000 lbs. of line wire. Specifications can be seen at the Purchasing Agent's office. The lowest or any tender not necessarily accepted.

Wm. W. NORTHCOTT,
Purchasing Agent.

City Hall, August 31, 1911.

## NOTICE TO CONTRACTORS

### Vernon Court House

Sealed tenders, superscribed "Tender for Court House, Vernon," will be received by the Honorable the Minister of Public Works up to 12 o'clock noon of Thursday, the 21st day of September, 1911, for the erection and completion of a Court House at Vernon, B. C., in the Okanagan Electoral District.

Plans, specifications bills of quantities, contract and forms of tender may be seen on or after the 31st day of August, 1911, at the offices of the Government Agents, Vernon, Revelstoke, New Westminster, Nelson; the Provincial Timber Inspector, Vancouver; and the Department of Public Works, Parliament Buildings, Victoria, B. C.

Intending tenderers can, by applying to the undersigned, obtain one copy of the drawings and one copy of the specifications and bills of quantities for the sum of twenty-five dollars ($25).

Each tender must be accompanied by an accepted bank check or certificate of deposit on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for a sum equal to five (5) per cent. of his tender, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so. The check or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

The successful tenderer shall furnish a bond of a guarantee company satisfactory to the Minister of Public Works, equal to ten (10) per cent. of the contract amount, for the due fulfilment of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Public Works Engineer.

Department of Public Works,
Victoria, B. C., Aug. 24, 1911.

### PUBLIC NOTICE

PUBLIC NOTICE is hereby given that the Corporation of the City of Victoria has deposited with the Minister of Public Works of Canada a plan and description of certain properties which the Corporation proposes after the expiration of thirty (30) days from the date of the first publication of this notice in the Canada Gazette, to make application to purchase, under the provisions of Section 24 of the Expropriation Act of Canada, and has deposited a duplicate of the said plan and description in the office of the Registrar General of Titles for Victoria district.

The lands for which such application to purchase will be made are described as follows:

All and singular that certain parcel or tract of tide lands situate, lying and being composed of a portion of The Arm, Victoria Harbor, known as The Creek and which may be more particularly described as follows, that is to say:

Commencing at a point on the westerly limit of Bridge Street in the City of Victoria, and Province of British Columbia, distant one hundred and seventeen (117) feet from its intersection with the northerly limit of David Street, the said point being at high water mark, thence north thirteen degrees and seventeen minutes (N 13° 17' W) West ninety-one and one-half (91½) feet, thence north forty-eight degrees and forty-two minutes East (N 48° 42' E) forty-three and nine-tenths feet (43.9), thence north one hundred and five (105) feet; thence north four degrees and two minutes west (N 4° 02' W) seventy-one and two-tenths (71.2) feet; thence north nineteen degrees and fifty-nine minutes east (N 19° 59' E) thirty-four and three-tenths feet (34.3), thence north ten degrees and fifty-five minutes west (N 10° 55' W) fifty-eight (58) feet; thence north thirty-four minutes west (N 0° 34' W) one hundred (100) feet; thence south fifty-five degrees and twenty-six minutes west (S 55° 26' W) fifty-four and six-tenths (54.6) feet thence south twenty-two degrees and thirty minutes west (S 22° 30' W) seventy-five and eight-tenths (75.8) feet; thence south five degrees and three minutes East (S 5° 03' E) thirty-four and two-tenths (34.2) feet; thence south sixteen degrees and thirty minutes west (S 16° 30' W) twenty-eight and two-tenths (28.2) feet; thence south thirty-three degrees and thirty-two minutes west (S 33° 32' W), fifty-one and six-tenths (51.6) feet; thence south forty-one degrees and four minutes west (S 41° 04' W) forty-six and four-tenths (46.4) feet; thence south thirty-seven degrees and four minutes west (S 37° 04' W) sixty-one and four-tenths (61.4) feet; thence south forty degrees and forty-four minutes east (S 40° 44' E) two hundred and fifty-seven feet (257) more or less to the point of commencement, the same containing ninety-eight one hundredths (98-100) acres more or less.

Dated June 30th, A. D. 1911.

F. A. McDIARMID,
City Solicitor's Office, City Solicitor.
City Hall, Victoria, B. C.

### CANCELLATION OF RESERVE

NOTICE is hereby given that the reserve existing upon Crown lands in the Lillooet District and in the Kamloops Division of Yale District, notice of which was published in the British Columbia Gazette, dated May 5th, 1910, is cancelled in so far as the same relates to the lands in Lillooet District surveyed as lots numbered 1,532, 1,533, 1,531, 1,530, 1,520, 1,521, 1,522, 1,523, 1,518, 1,519, 1,509, 1,506, 1,510, 1,511, 1,517, 1,516, 1,512, 1,655, 1,654, 1,660, 1,629, 1,638, 1,641, 1,653, [illegible], [illegible], 1,643, 1,645, 1,791, 1,644, 1,646, 1,648, 1,647, 1,668, 1,649, [illegible], [illegible], [illegible], [illegible], [illegible], 1,625a, 1,650a, [illegible], [illegible], 1,617, 1,622, 1,627, [illegible], [illegible], [illegible], 1,614, 1,615, and 1,616.

ROBT. A. RENWICK,
Deputy Minister of Lands.
Department of Lands, Victoria, B. C.,
May 25th, 1911.

## NOTICE TO CONTRACTORS

### Provincial Home, Kamloops, East Wing Addition

SEALED tenders, superscribed "Tender for East Wing Addition, Provincial Home, Kamloops," will be received by the Honorable the Minister of Public Works up to 12 o'clock noon of Wednesday, the 20th day of September, 1911, for the erection and completion of an east wing addition to the Provincial Home, Kamloops, B. C.

Plans, specifications, contract and forms of tender may be seen at the offices of the Provincial Timber Inspector, Vancouver, B. C.; the Government Agents, Kamloops, New Westminster, and Revelstoke; and at the Department of Public Works, Parliament Buildings, Victoria, B. C.

Intending tenderers can, by applying to the undersigned, obtain one copy of the drawings and one copy of the specifications for the sum of twenty dollars ($20).

Each tender must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, [illegible]

## Women's Costumes and Long Coats in all the Latest and Most Approved Styles

Every day we are receiving new shipments of Dressy Suits, in Cheviots, Tweeds, Diagonals, Venetians, and All-wool Serges, in a variety of newest colors and weaves.

For quality of workmanship, smart styles and rich colorings, we have never handled a finer assortment, while the prices are within the mark where even the most modest dressing woman can purchase without feeling any degree of extravagance.

Perhaps the most popular styles are made in high-grade Cheviots, in navy, black and browns, semi-fitting in style. Coats are rather longer than the Spring and Summer garments, while the skirts are rather fuller and are made with the popular sash effect, or in the plain tailored styles with panels back and front.

The new shawl collars are quite a popular feature this season, and will be found in a variety of pleasing effects in our show rooms. Some are in plain satin, while others are inlaid with various materials, contrasting with the goods that the suit is made of.

The more moderate priced garments come in a large range of Serges, Venetians and Diagonal Cloths, in many new and dressy styles, too numerous to mention in detail, but each one is full of interest to any woman who approves of neat but snappy garments.

**Prices Ranging from $16.75 up to $75**

**FASHIONABLE LONG COATS IN MANY NEW AND INTERESTING STYLES**

Tweeds, chiefly in mixtures of browns and greys, also Plush and Ponetta Cloths, are very popular this season and are being worn in all the great fashion centres. For appearance, service and comfort these materials are unexcelled, and the prices on these very fine and stylish models are remarkably low.

The most popular styles are the plain slip-on, semi-fitted models, with large lapels, double-stitched seams and patch pockets, the slip-on style with large shawl collar, making an unusually comfortable, cosy garment, with a very attractive appearance and the Ponetta Cloth Coats in a variety of styles.

## Men's and Boy's Suits and Overcoats Marked at Very Low Prices

**Young Men's Suits** are cut a little longer and straighter in front than last season. In close three-button, long-lapel effect. The middle-aged and older men's suits are not so long as the young men's, and the lapels are made shorter. With three and four buttons. We have some very choice things to offer in blues, greys, green mixtures and nut browns, at very reasonable prices. From $22.50 down to .............. **$15.00**

**In Men's Overcoats** we are now showing all the latest styles and patterns. In Chesterfield, full length and three-quarter cuts. In Ulsters, with military and two-way collar, made up in the very best tailored fashions. In heavy tweeds, beavers, heavy Wales serges, cheviots and fine finished worsteds, in blues and black. Some with velvet collars and some with plain. See our prices—$18.00, $15.00, $12.50 and.... **$10.00**

**Curries' Celebrated Macintoshes,** direct from the manufacturers. These coats are known all over for their superior waterproof qualities. Made good and full round skirt for walking. In two shades of fawn, with military collars, also in black. In good long lengths. Prices $15.00, $12.50 down to .... **$10.00**

**A Shipment of Stetson Hats** in the latest blocks, in fawns, nut browns, seal browns and black. Our prices, $5.00 and.. **$4.00**

**Men's Trousers,** in heavy tweeds, whipcords and serges, in a large assortment of shades and patterns, in heavy and medium weights. Prices from $3.50 down to .............. **$1.50**

**Boys' Clothing**—Now is the time to outfit your boys for the opening of school. Every day brings us in something new for the boys. We have just opened up two hundred suits in two and three-piece, double-breasted styles, in browns, greys and green mixtures. In tweeds, worsteds and serges. All tailored and trimmed in the very latest fashions and as usual, our prices are right. Ranging from $10.00 down to ............ **$2.25**

**Boys' School Caps,** in tweed, golf and serges. Prices...... **25¢**

# Boots and Shoes for Men, Women and Children at Spencer's Special Prices

**MEN'S BOOTS AT $3.50**

These are all entirely new goods that have been unpacked during the last few days, and include all that is new in leathers and lasts. In point of style this line is hard to beat at less than $5 a pair, and will bear comparison with any of this season's models sold in the average store at not less than $5.

These boots are Goodyear welted, have extra stout soles for Fall and Winter wear, and are made entirely from high-grade stock. You can make your choice from any of the following leathers, and be sure of securing a first-class bargain—box calf, velour calf, patent leather and glace kid. Many leather lined.
